COMPANY
PROFILE

**BUILDING TRUST,
ONE FRAME
AT A TIME**

OUR STRATEGY

At Erram, our future strategy is designed to solidify our position as a market leader in aluminum and UPVC solutions while driving sustainable growth. We are focused on expanding our capabilities, enhancing our product offerings, and ensuring that we continue to exceed our clients' expectations.

Our strategy is built on the following key pillars.

INNOVATION & PRODUCT DEVELOPMENT

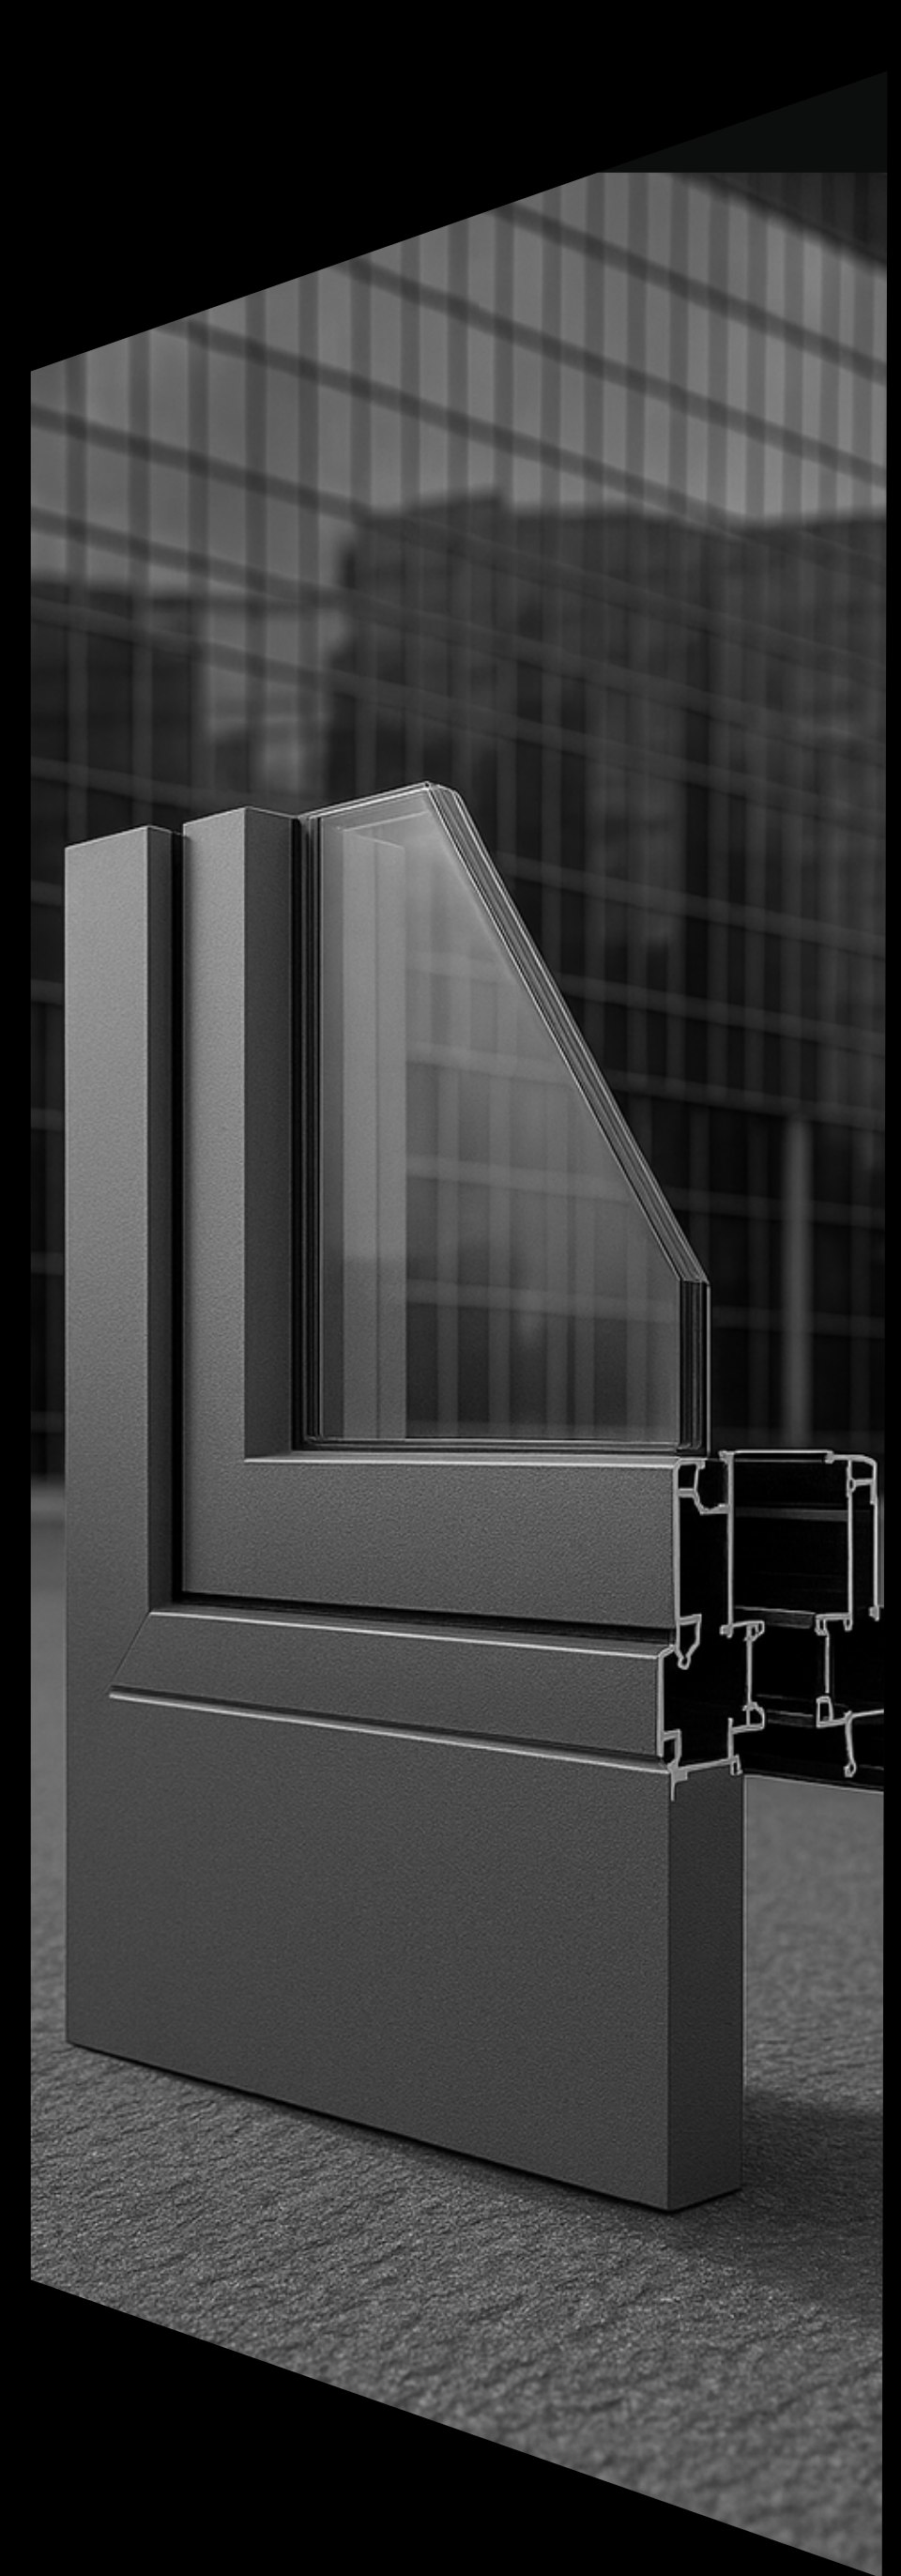

Continuous Innovation

We will invest in research and development to introduce new aluminum and UPVC products that meet the evolving needs of the construction industry.

Our focus will be on integrating the latest technologies, such as smart home compatibility and enhanced environmental sustainability, into our product range.

Customization

Expanding our customization options to offer more tailored solutions that cater to the specific requirements of different markets and customer preferences.

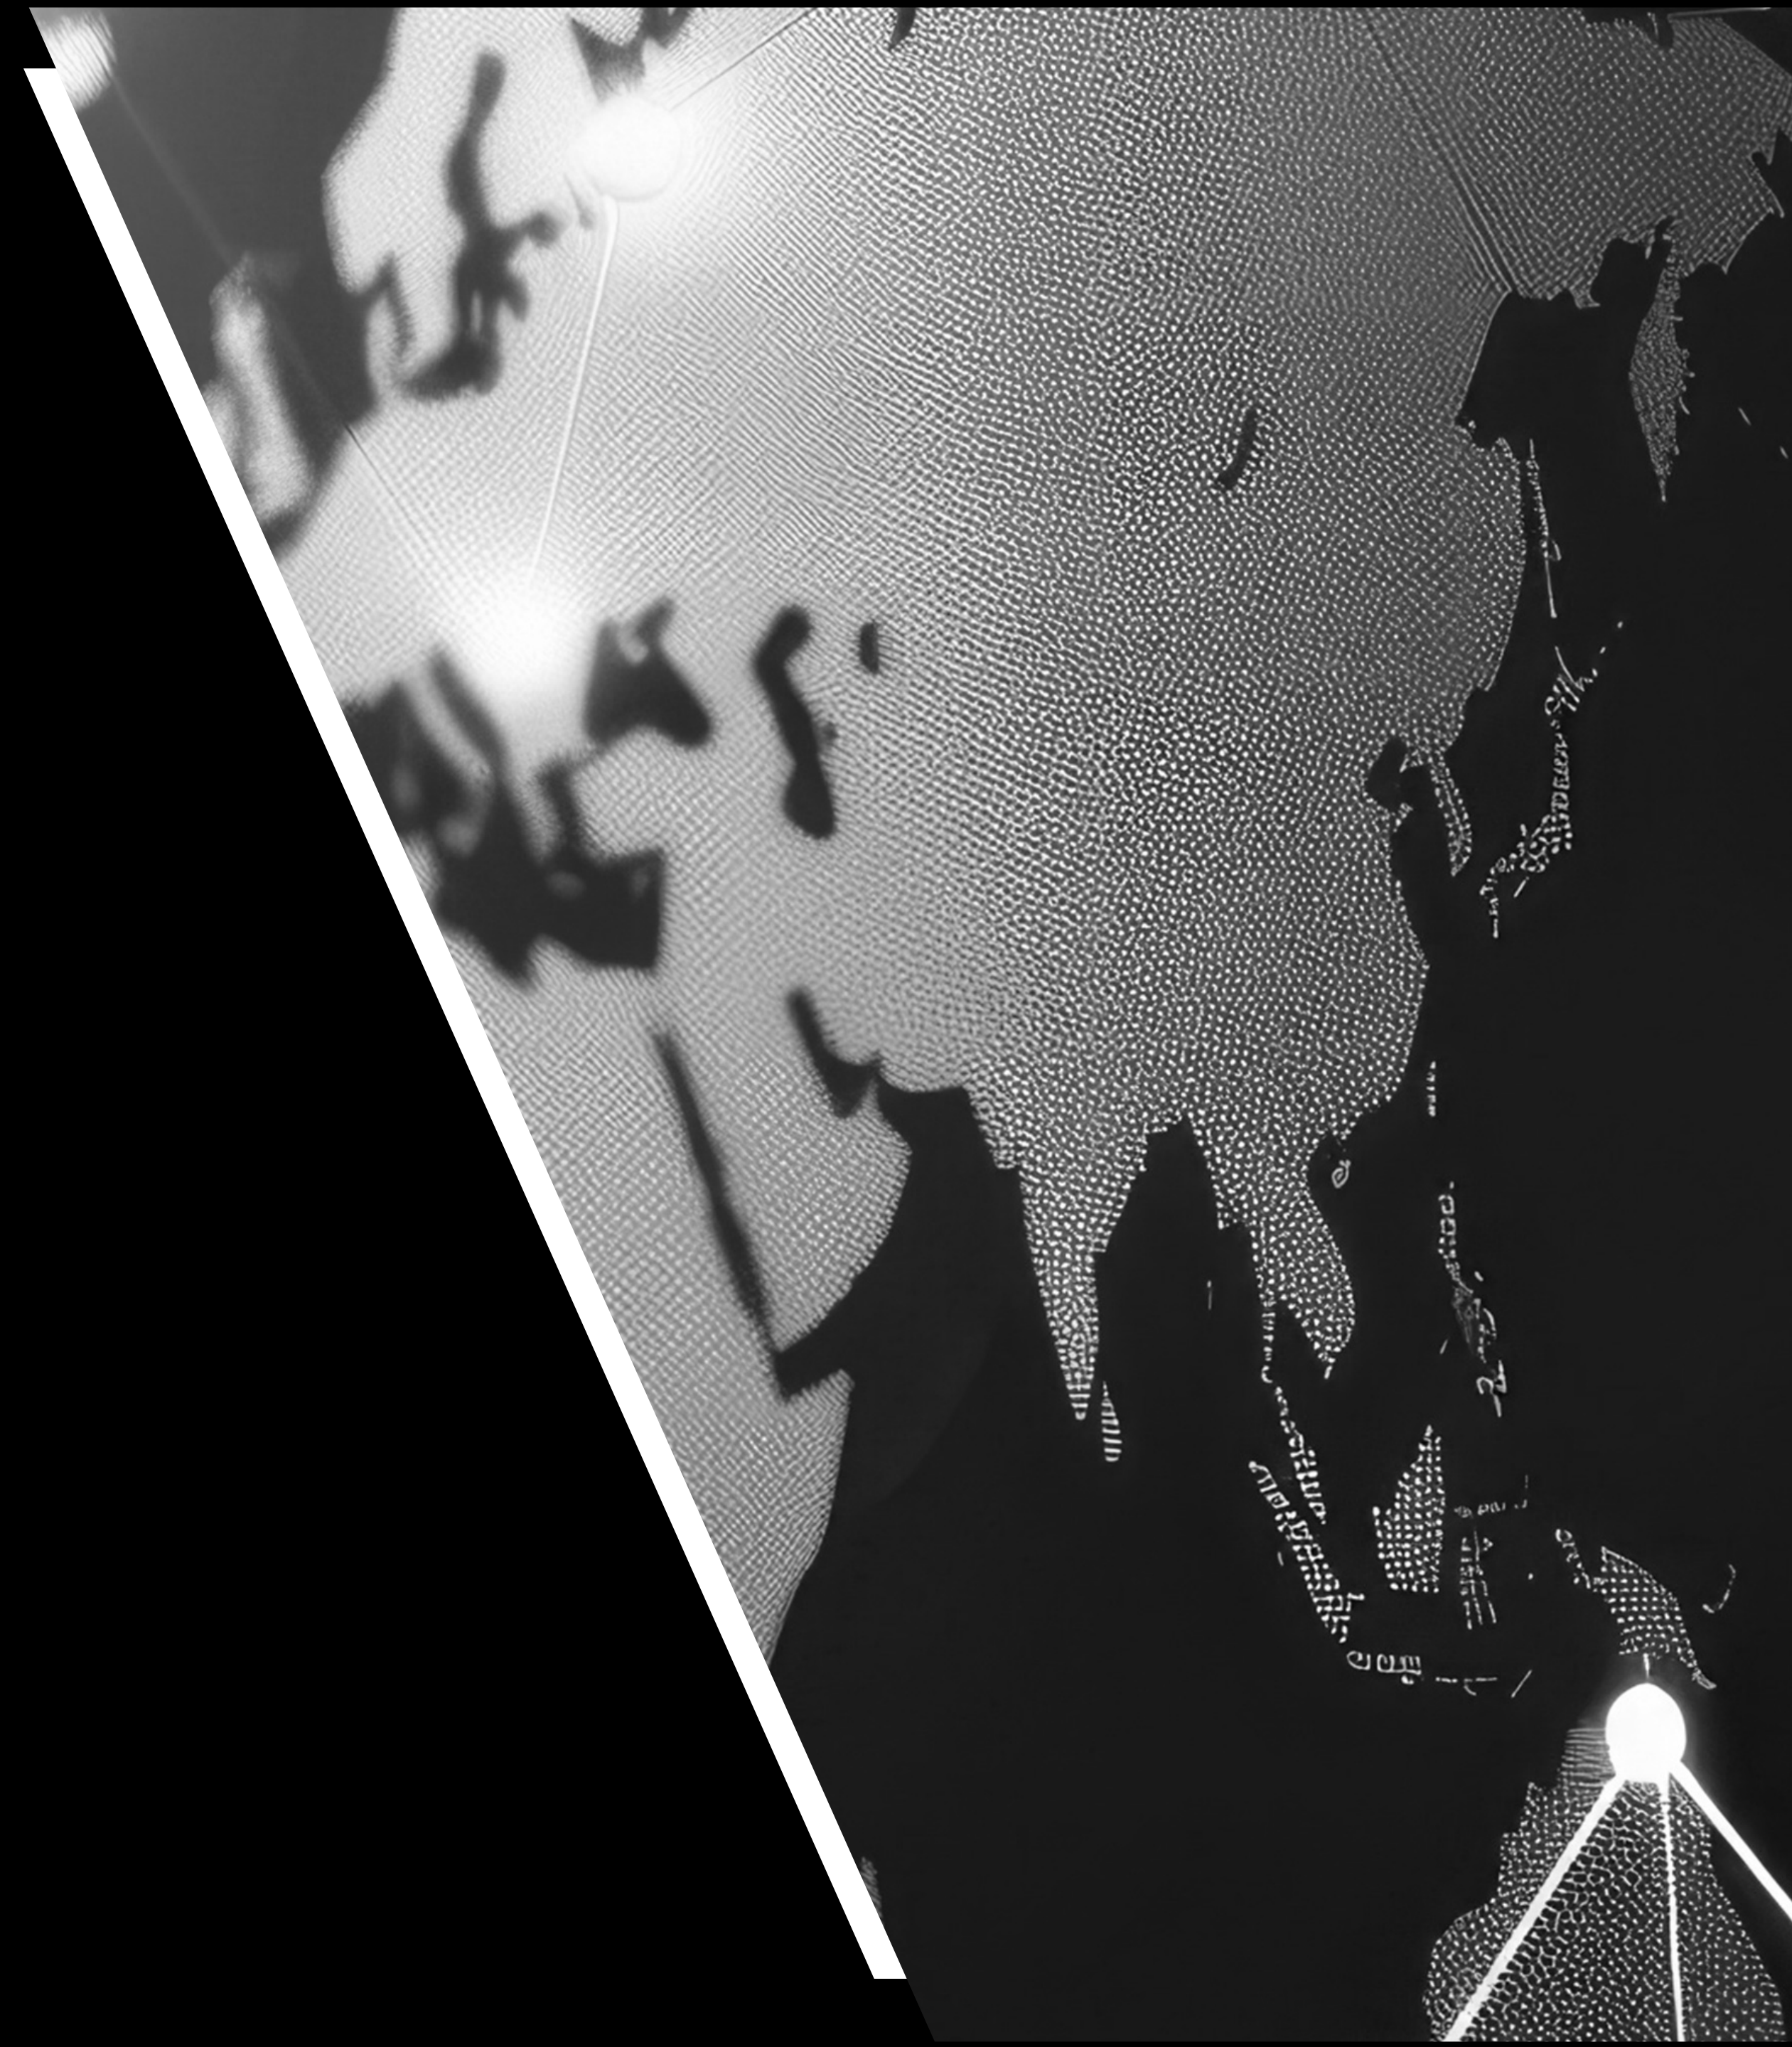

MARKET EXPANSION

Geographical Growth

We plan to expand our presence in both domestic and international markets, targeting key regions where there is growing demand for high-quality aluminum and UPVC solutions.

Strategic Partnerships

We will form strategic alliances with leading construction firms, real estate developers, and architects to increase our market penetration and explore new opportunities.

SUSTAINABILITY & ENVIRONMENTAL RESPONSIBILITY

Eco-Friendly Products

Our future product lines will emphasize eco-friendliness, with a strong focus on reducing our carbon footprint. We aim to develop and promote aluminum and UPVC solutions that contribute to sustainable building practices.

Green Manufacturing

We will enhance our manufacturing processes to ensure they are as environmentally friendly as possible, including reducing waste, optimizing energy use, and sourcing sustainable materials.

OPERATIONAL EXCELLENCE

Technology Integration

We will invest in advanced manufacturing technologies and automation to improve efficiency, quality, and production capacity.

Supply Chain Optimization

Strengthening our supply chain to ensure reliability, cost-effectiveness, and the ability to quickly respond to market demands.

CUSTOMER EXPERIENCE ENHANCEMENT

Digital Transformation

We will enhance our digital presence and e-commerce capabilities, making it easier for customers to explore, customize, and order our products online.

After-Sales Support

Expanding our customer support services to include comprehensive after-sales care, ensuring long-term customer satisfaction and loyalty.

TALENT DEVELOPMENT

Employee Training

We will invest in continuous training and development programs for our employees, ensuring they are equipped with the skills needed to drive innovation and operational excellence.

Leadership Development

Identifying and nurturing future leaders within our organization to ensure a strong, visionary leadership team that can guide Erram into the future.

COMMUNITY ENGAGEMENT

Corporate Social Responsibility (CSR)

We will actively engage in CSR initiatives, focusing on giving back to the communities where we operate and supporting initiatives that promote education, environmental conservation, and social well-being.

A NOTE FROM OUR CEO, Abd Elwahab Hafez

At Erram, our journey has been one of relentless pursuit of excellence, innovation, and integrity. Since our founding in 2016, we have grown from a small team with a big vision to a leading player in the aluminum and UPVC industry, shaping the future of construction in Egypt and beyond.

Our success is a testament to the dedication and hard work of our talented team, the trust of our clients, and our unwavering commitment to quality. We have always believed that our products should not only meet the technical requirements of modern construction but also contribute to creating spaces that are secure, energy-efficient, and aesthetically pleasing.

As we continue to grow, our focus remains on expanding our product offerings, enhancing our customer service, and pushing the boundaries of what's possible with aluminum and UPVC technology. We are passionate about delivering solutions that stand the test of time, and we are proud of the impact our work has on the communities we serve.

Thank you for choosing Erram as your partner in building a better future. Together, we will continue to achieve great things.

With gratitude,
Abdelwahab Hafez
CEO, ERRAM

INTEGRITY

Transparency

At Erram, we believe that honesty and transparency are the foundation of lasting relationships. We ensure that our dealings with clients, partners, and employees are conducted with the highest ethical standards.

Ethical Business Practices

Our commitment to integrity extends to every aspect of our business operations. We adhere to ethical business practices, ensuring that our products and services are delivered with fairness and respect for all stakeholders.

QUALITY

Uncompromising Standards

Quality is at the heart of everything we do. From the selection of raw materials to the final production process, we adhere to strict quality control measures to ensure that every product we deliver meets the highest standards of excellence.

Continuous Improvement

We are committed to continuous improvement, constantly refining our processes and products to exceed industry standards and customer expectations. Our dedication to quality is reflected in the durability, functionality, and aesthetic appeal of our aluminum and UPVC solutions.

RELIABILITY

Dependable Solutions

Our clients trust us to deliver products that perform consistently under all conditions. Whether it's the harsh weather resistance of our windows and doors or the long-lasting performance of our curtain walls and handrails, we stand by the reliability of everything we produce.

On-Time Delivery

We understand the importance of timelines in construction projects. Our efficient supply chain and production processes ensure that we deliver our products on time, every time, without compromising on quality.

COMMITMENT

Customer-Centric Approach

Our commitment to our customers goes beyond just providing products. We are dedicated to understanding their needs and delivering solutions that not only meet but exceed their expectations. Our customer support continues long after the sale, ensuring complete satisfaction.

Sustainable Growth

We are committed to the long-term success of our business and the communities we serve. This includes investing in sustainable practices, developing our employees, and contributing to the overall betterment of society.

PROJECTS

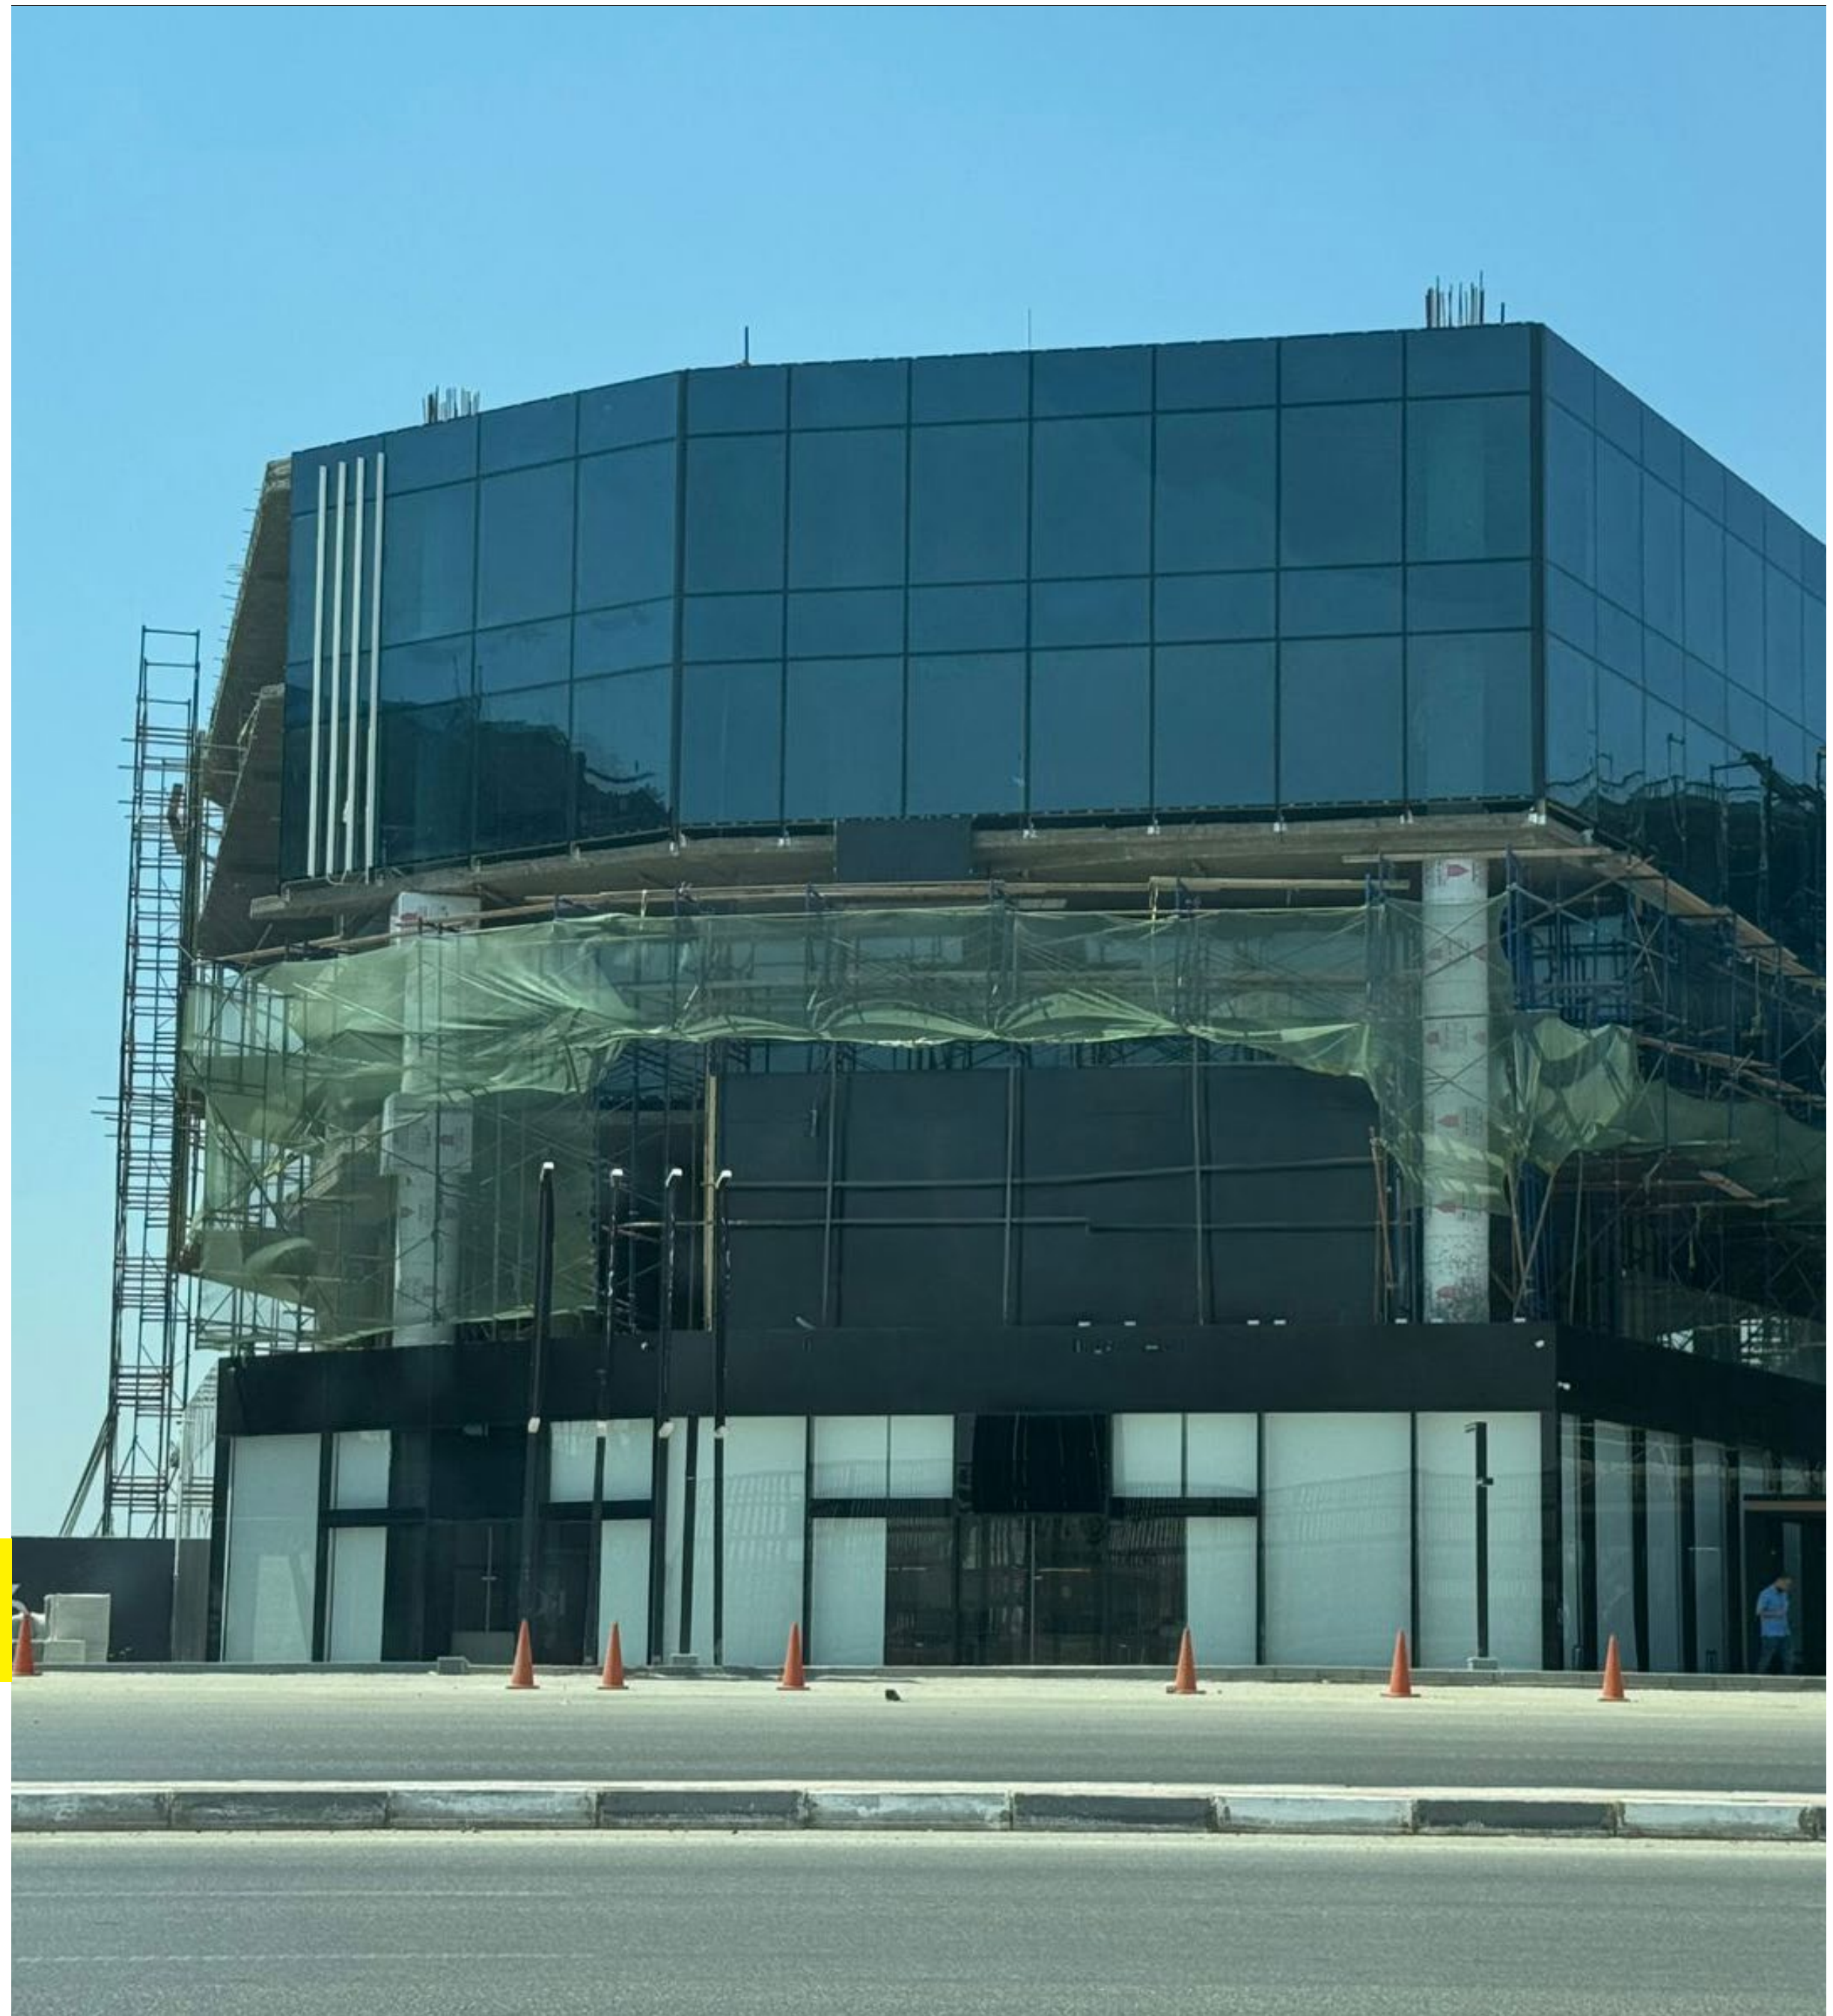

Sixty Heliopolis Sheraton Mall

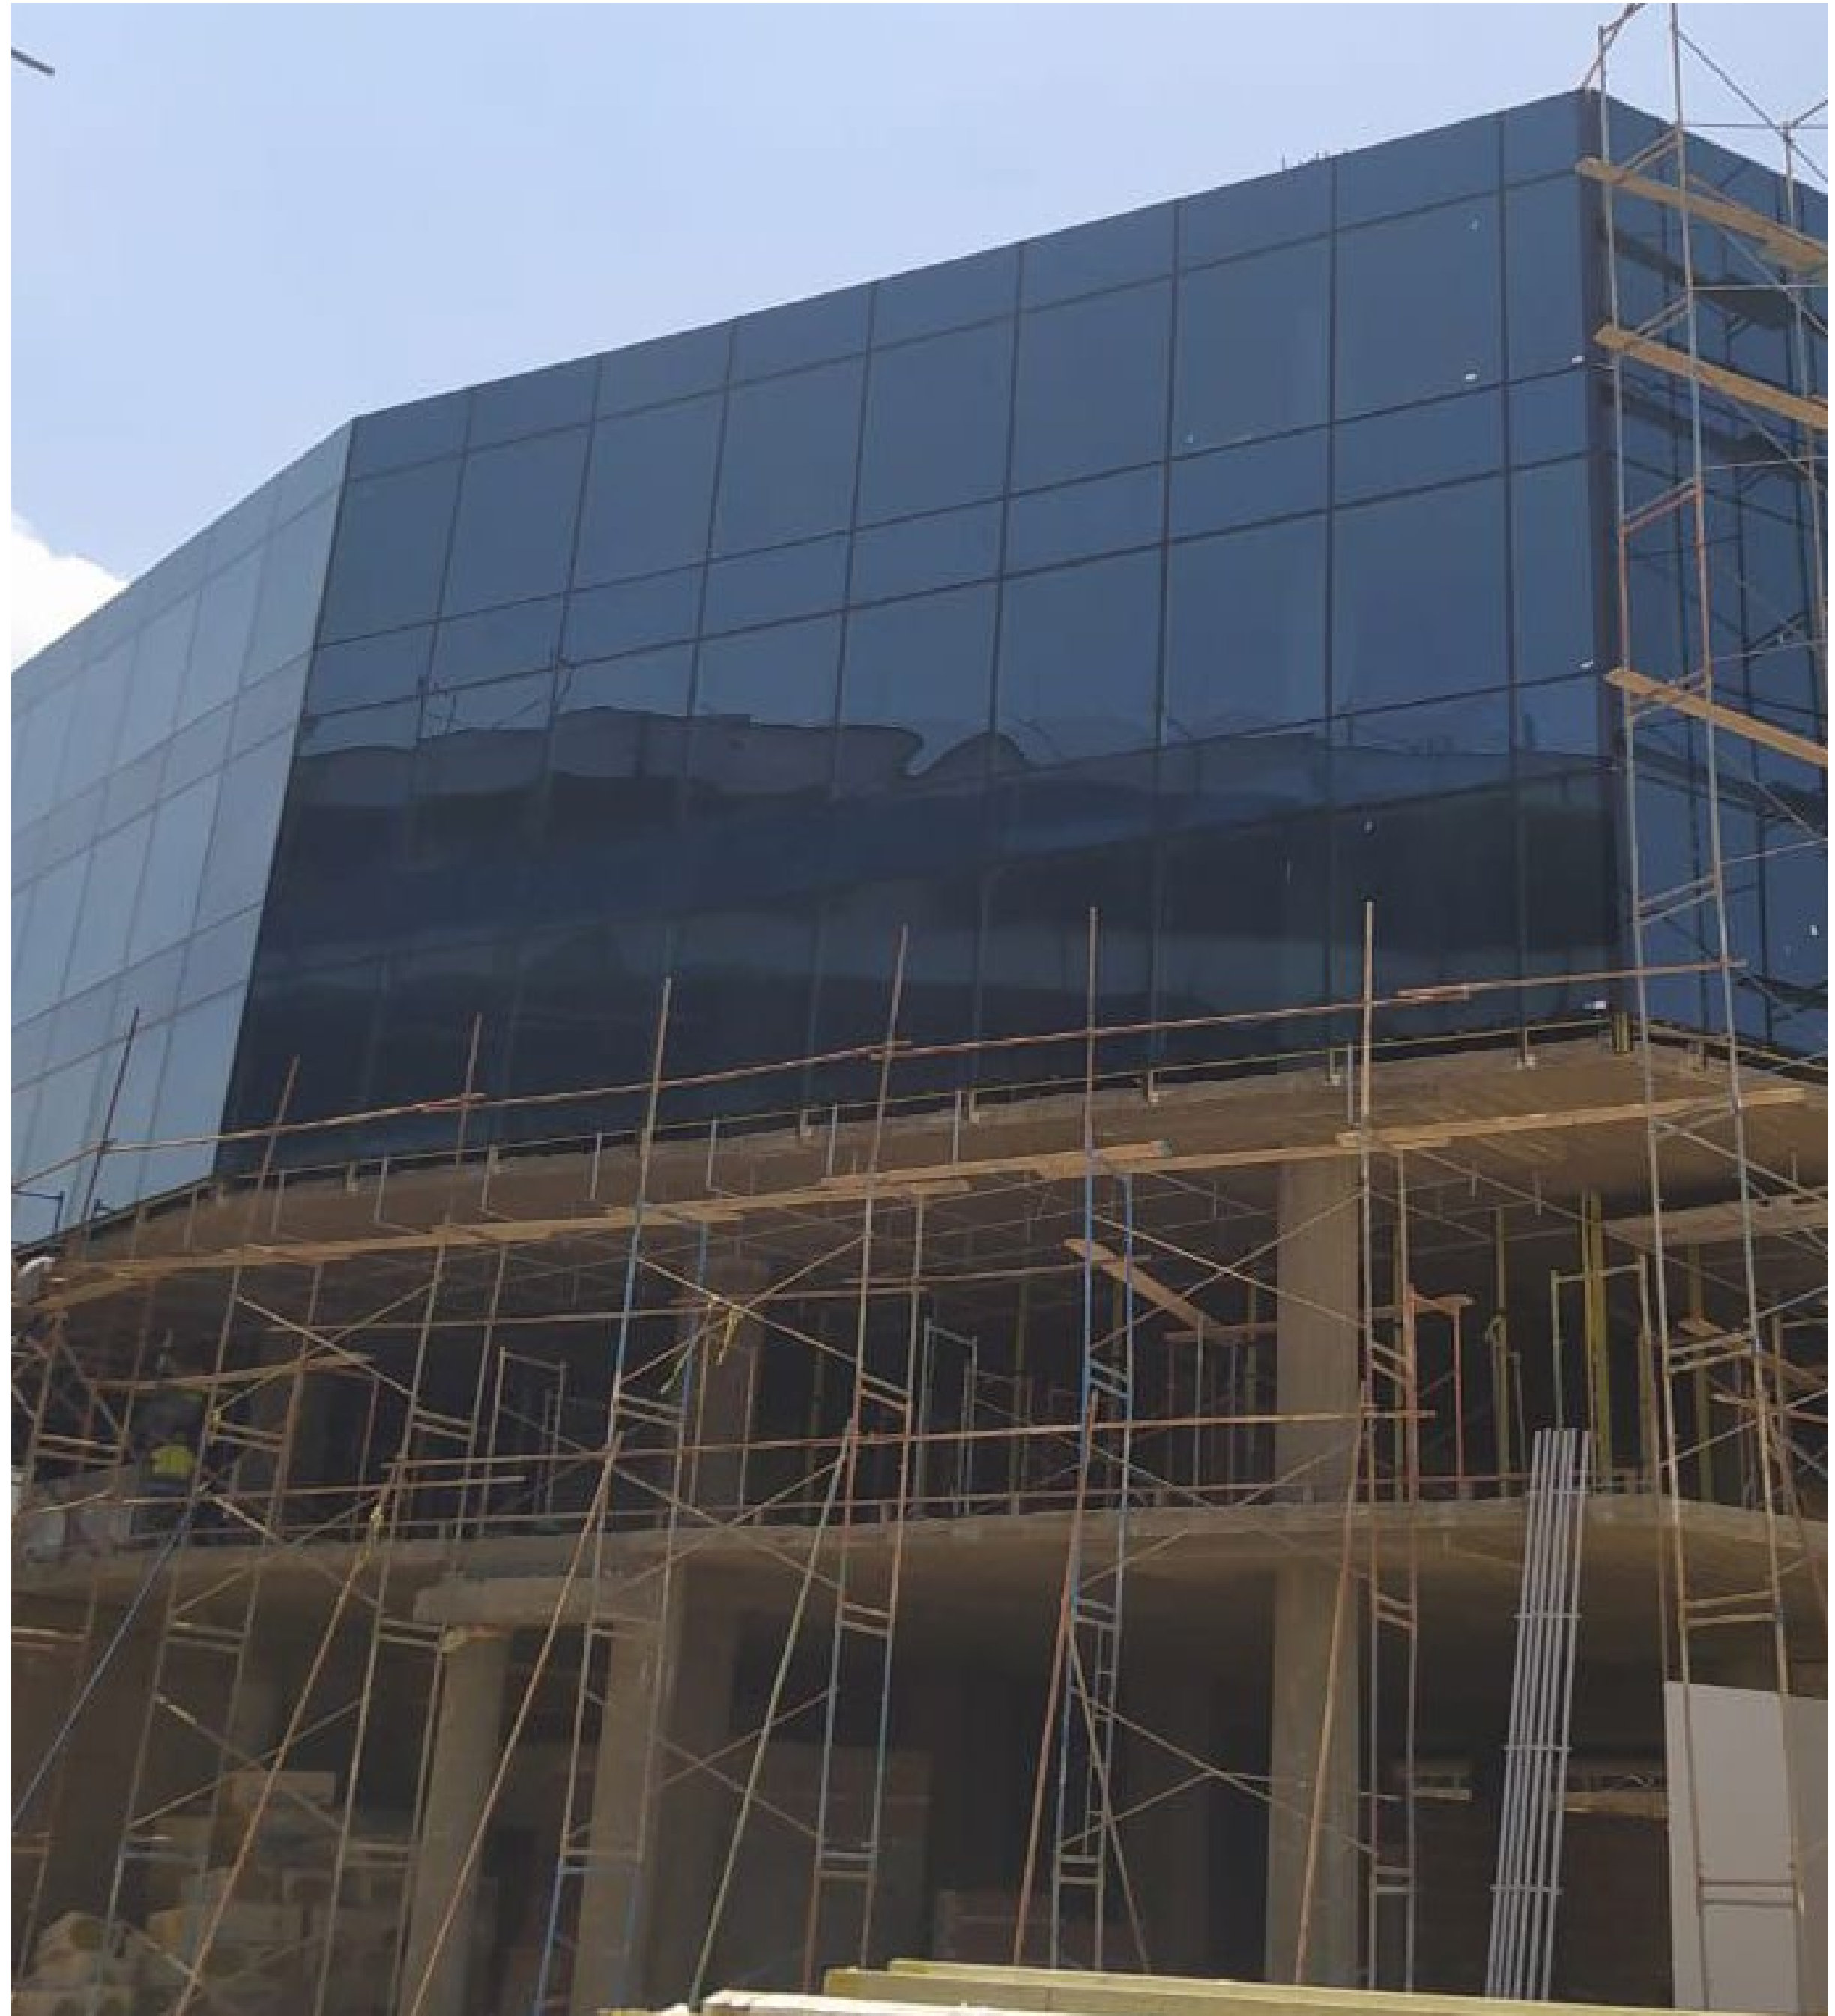

Curtain Wall - Aluminum Handrail -
Cladding Louvers

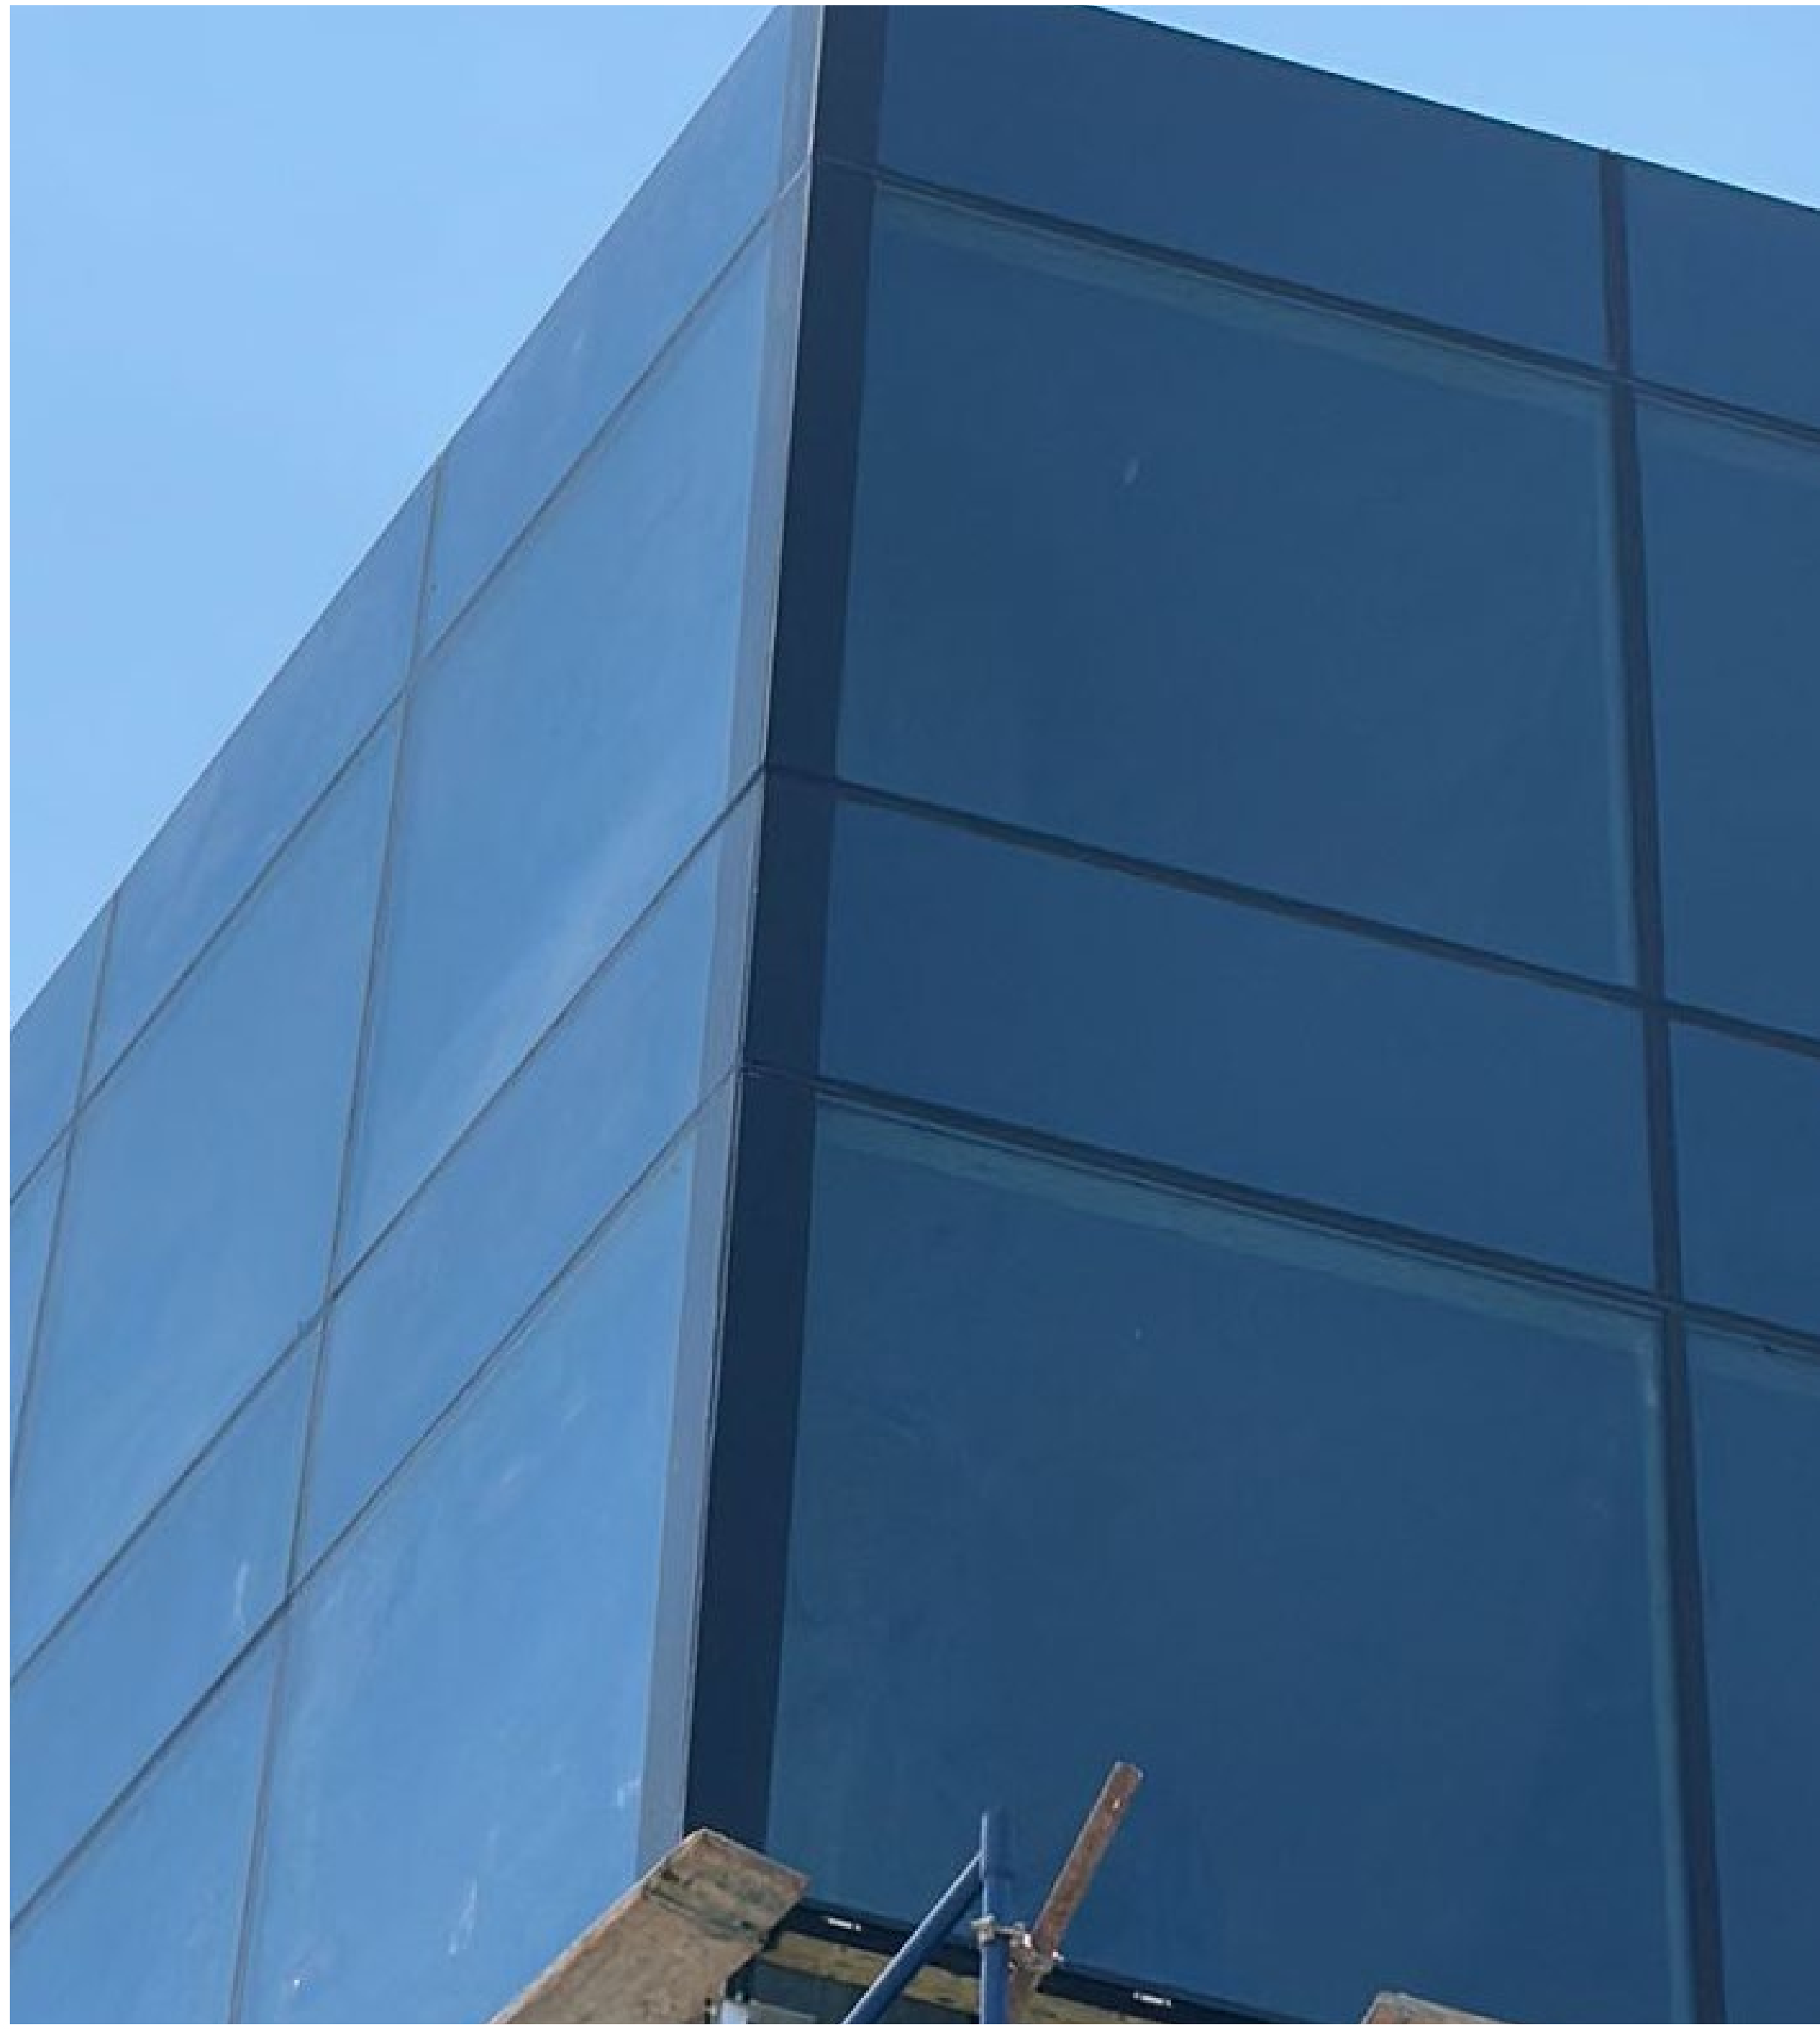

Project Details

ERRAM provided high-performance Aluminum systems for Sixty Heliopolis Mall, a commercial project designed to offer a modern retail experience in the heart of Sheraton. Our solutions ensured long-term durability, sound insulation, and energy efficiency—supporting both form and function in this urban development.

OIA COMPOUND

Window - Curtain Wall - Aluminum Handrails

Project Details

Building Trust, One Frame at a Time Oia Compound in New Capital offers the ideal housing experience where luxury and comfort are the two dominating characteristics; a one-of-a-kind lifestyle where residents are privileged to enjoy smart homes, integrated services, fascinating landscapes, and flagship architectural design. Oia New Capital is developed by Edge Holding Company, one of the real estate market leaders on a 30-Feddan land space that comprises a variety of medical, sporting, and commercial services.

Egypt's Islamic Cultural Center New Administrative Capital

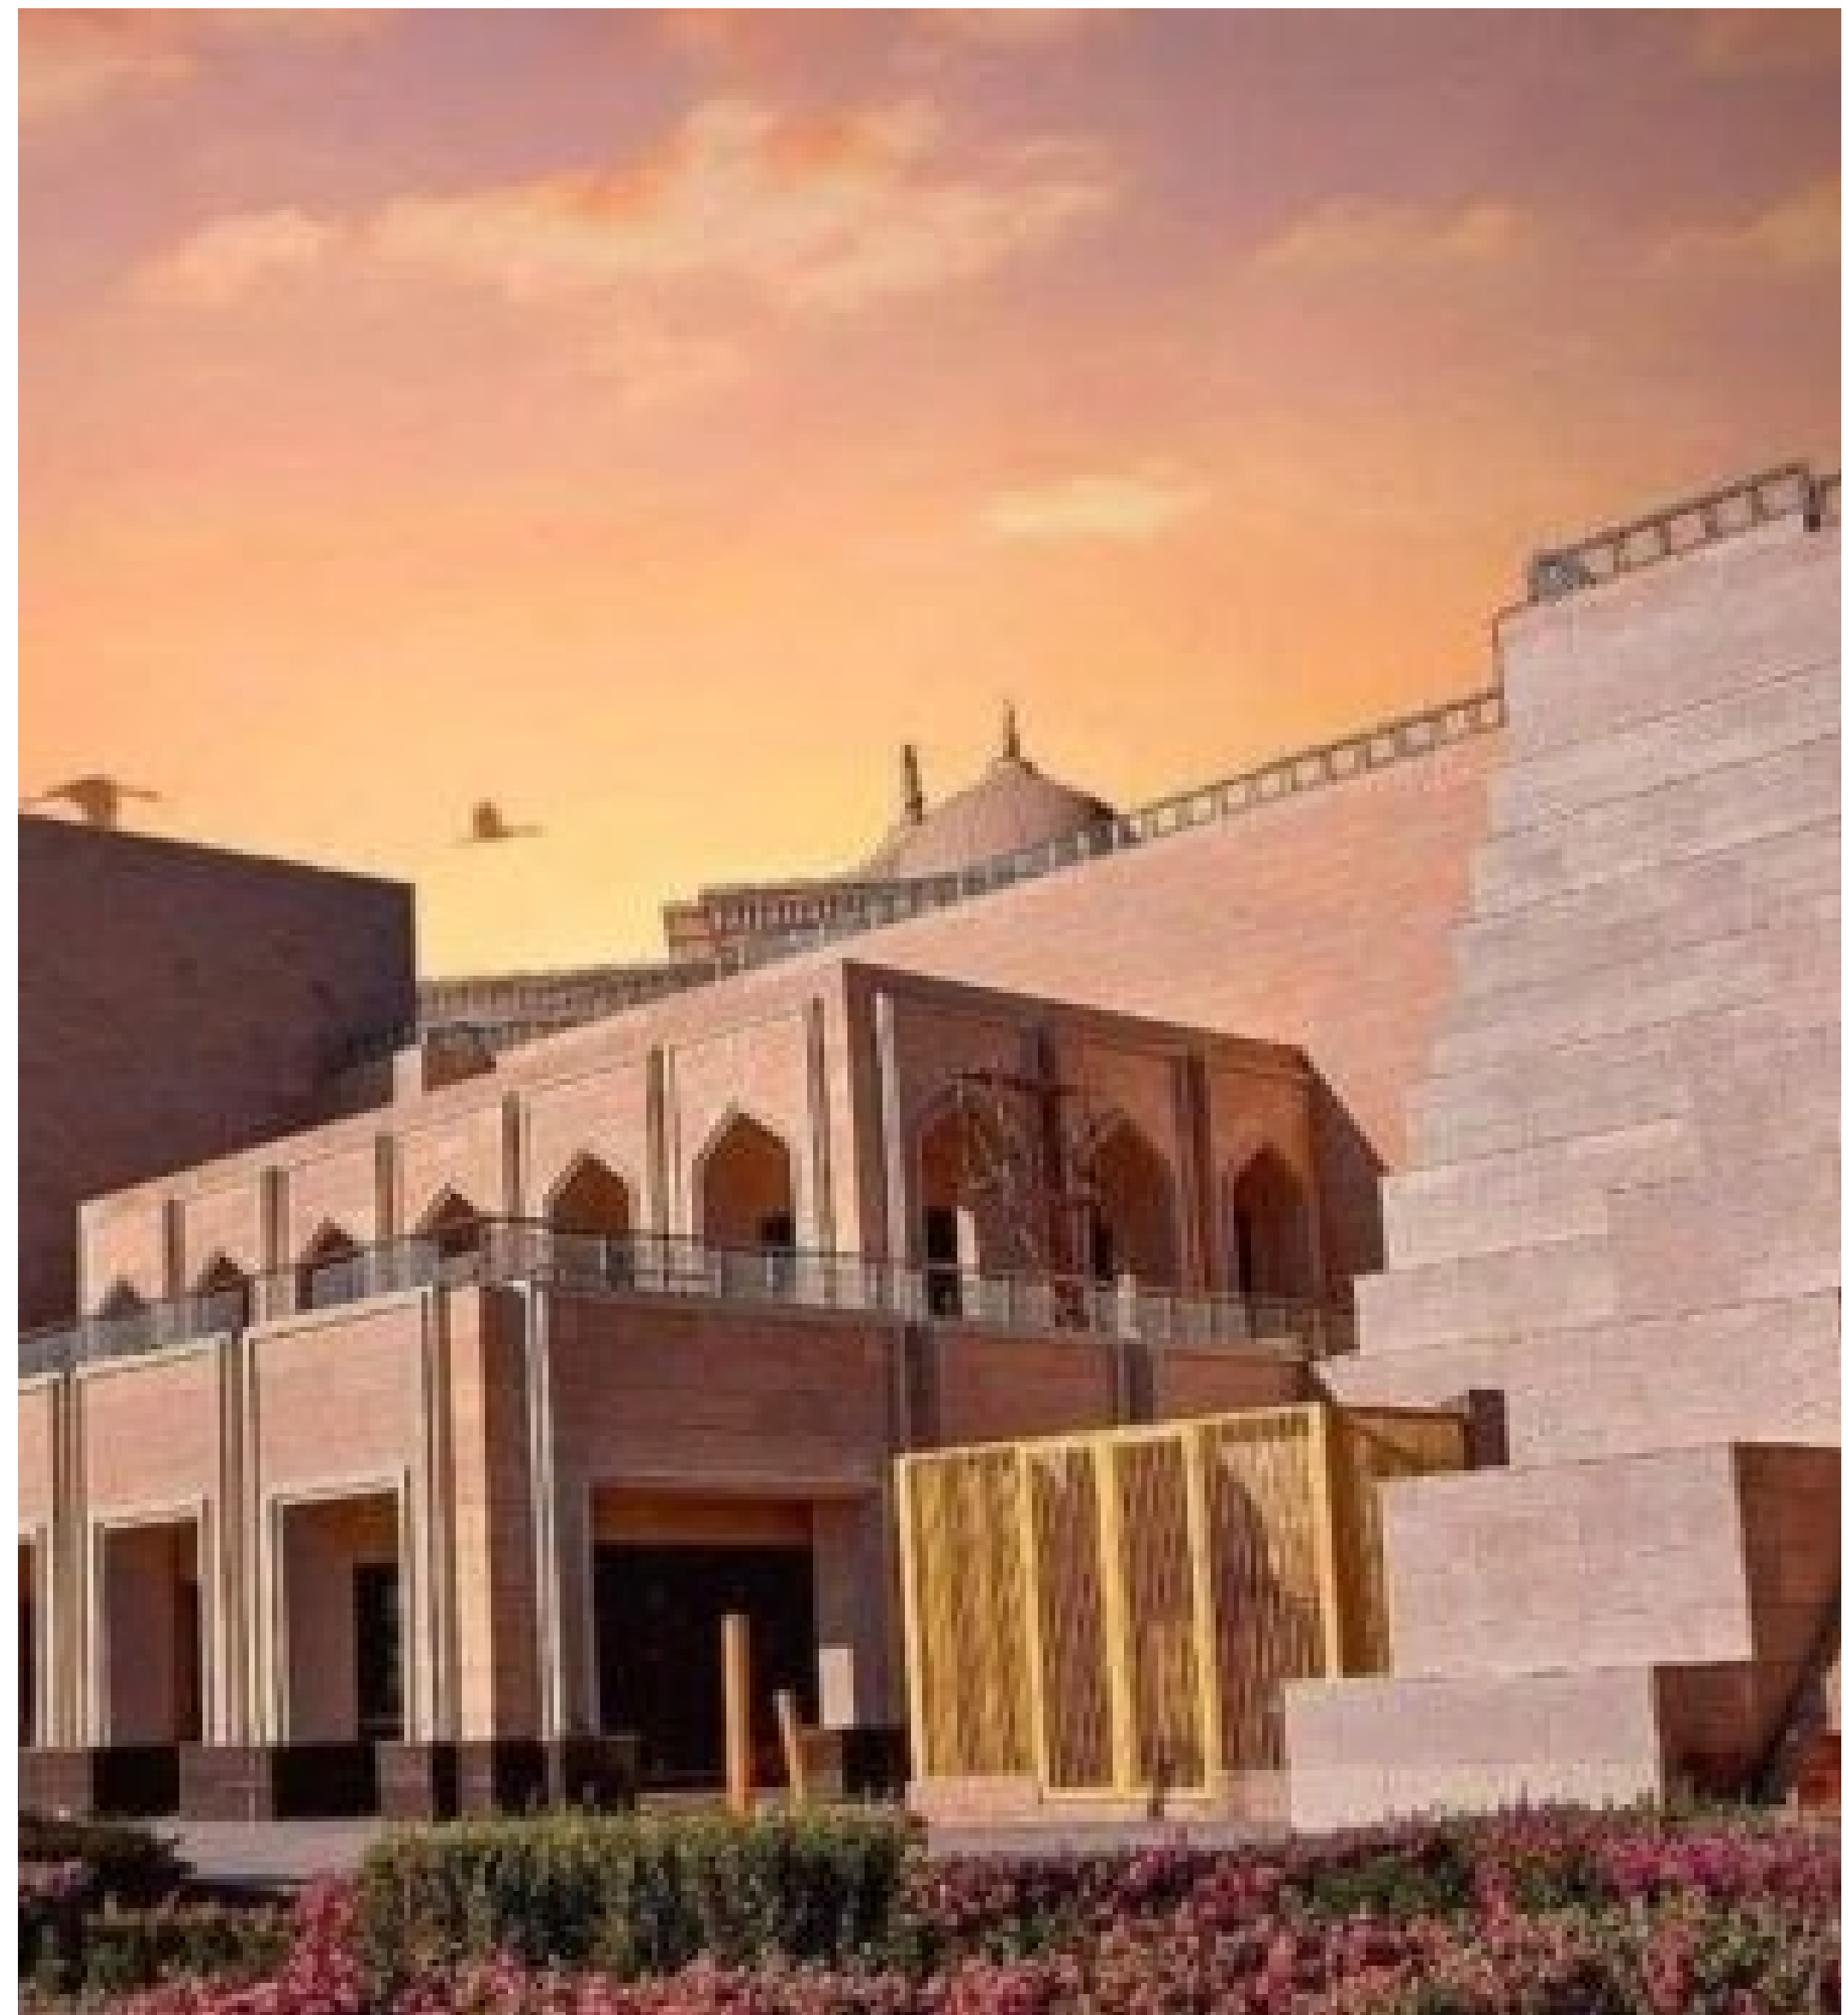

Glass-Fitting- Curtain Wall

Project Details

As one of Egypt's most iconic religious and cultural landmarks, the Islamic Cultural Center demanded precision and performance. ERRAM contributed advanced Aluminum systems that blend seamlessly into the center's monumental architecture delivering thermal insulation, acoustic performance, and structural reliability.

Lake West

Aluminum Handrail

Project Details

Cairo Capital Developments Company has launched its most prominent projects in the heart of Sheikh Zayed City, the Lake West project, as it is an integrated and luxurious residential compound, designed at the highest level of quality.

Terrace Window

Project Details

Make Terrace Mall your go-to destination for summer nights filled with laughter and good company.

Porto Golf Marina

Window - Curtain Wall - Aluminum Handrails

Project Details

Lunched in 2006 and is one of the largest and most hyper family entertainment destinations on the north coast opposite to New Alamein City. The most unique facility in Golf Porto Marina is the first and largest golf course on the north coast.

Golf Porto Marina is known for its endless landscapes and greenery that you open your eyes to in the morning.

Porto Sokhna

Window - Aluminum handrail

Project Details

It has all the romantic & charming elements of a perfect place mountain living & beach resort experiences in a friendly atmosphere just an hour away of Cairo.

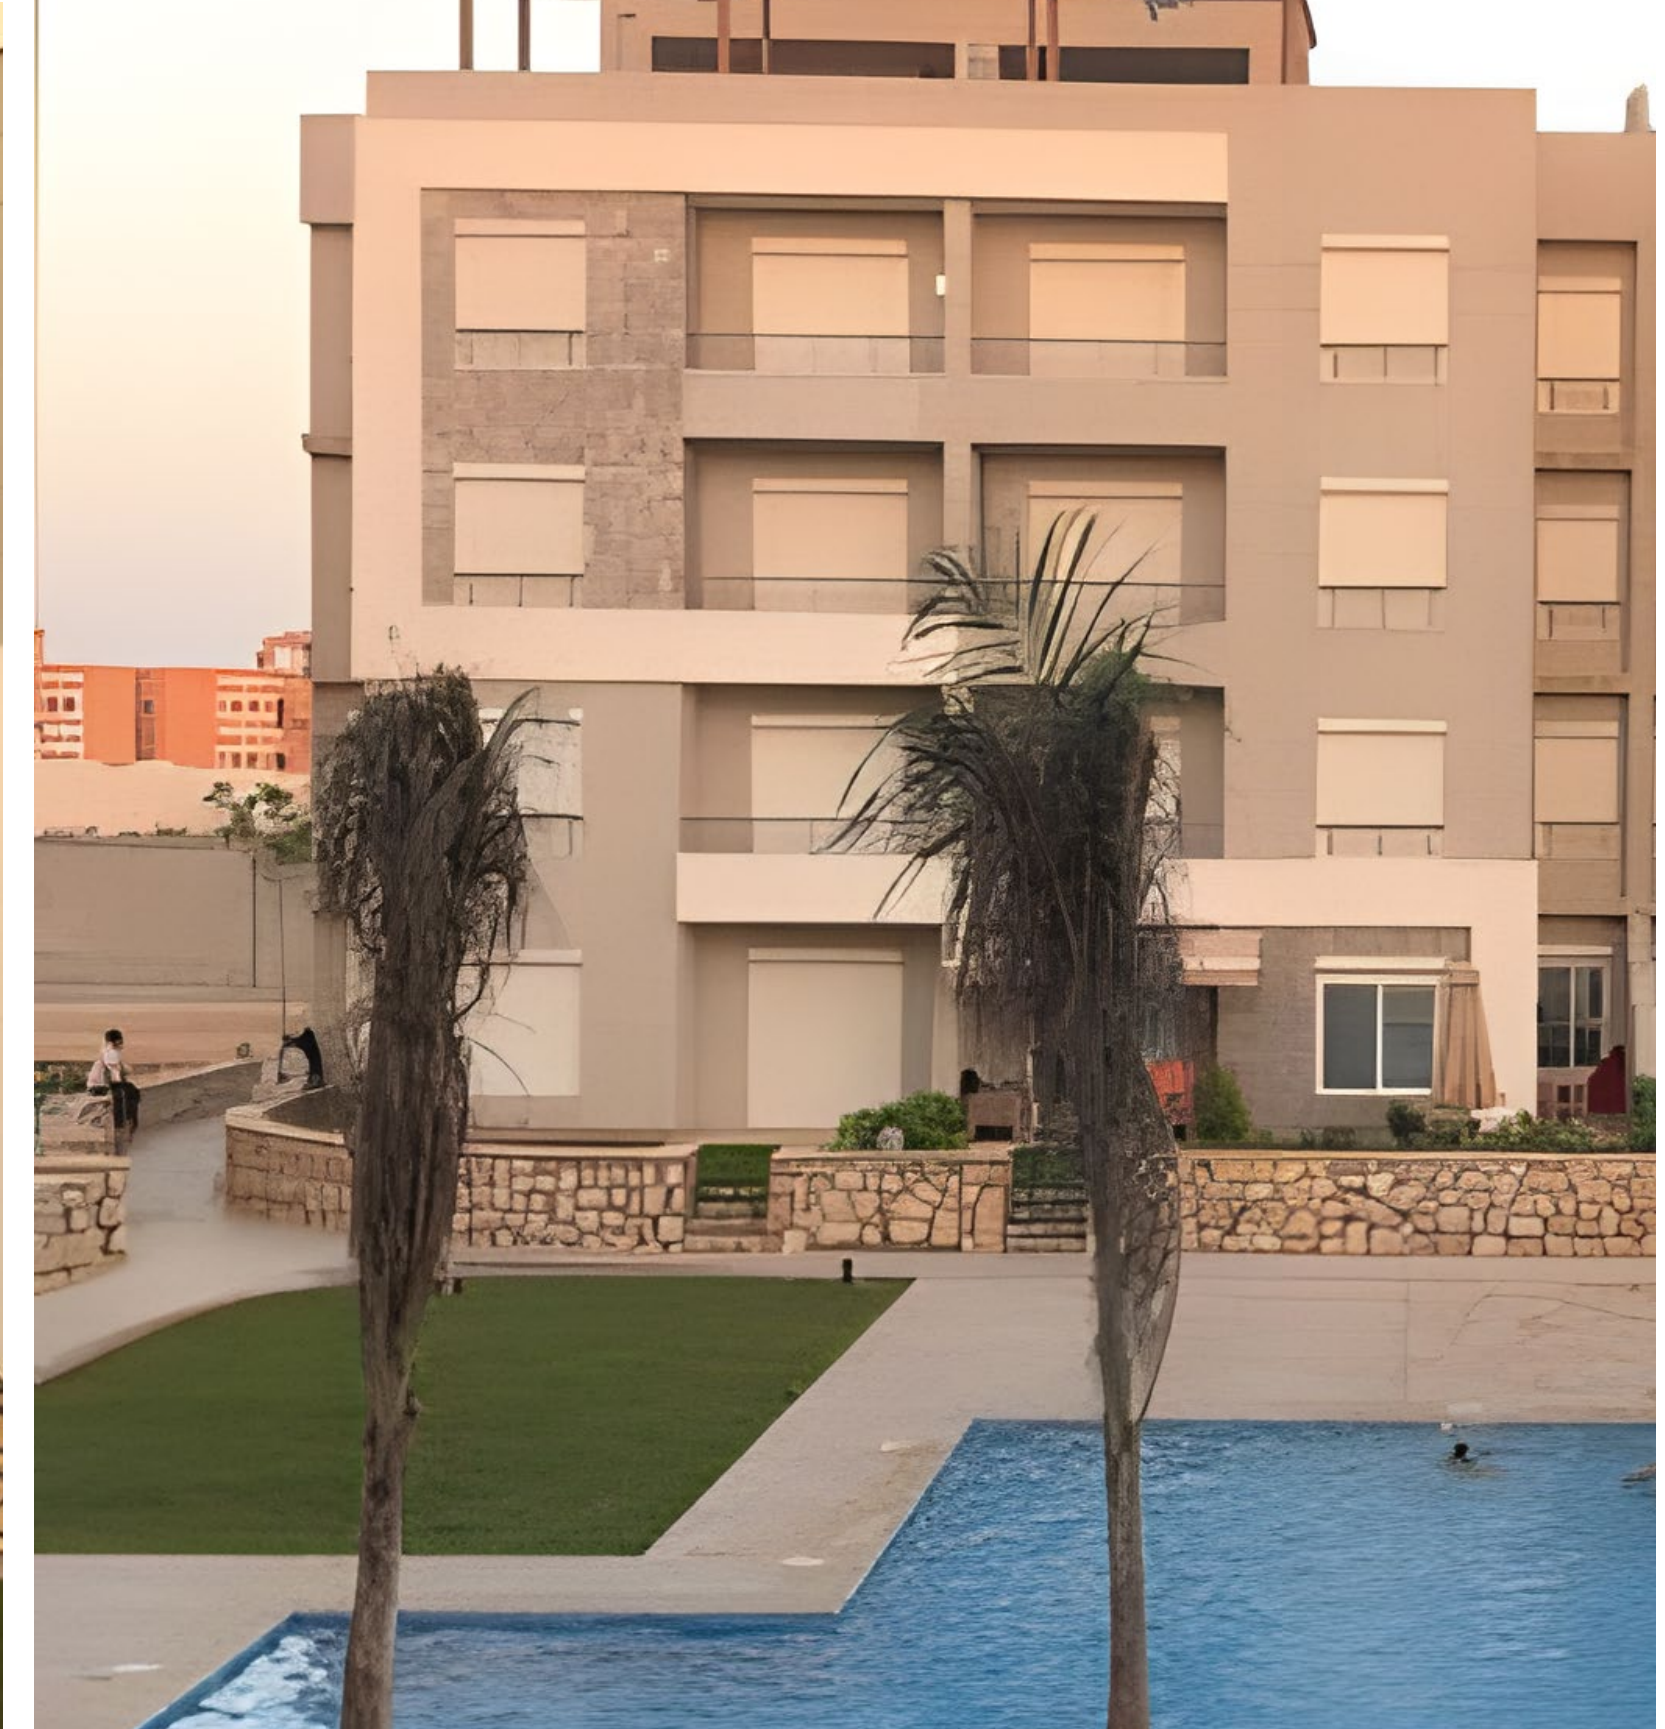

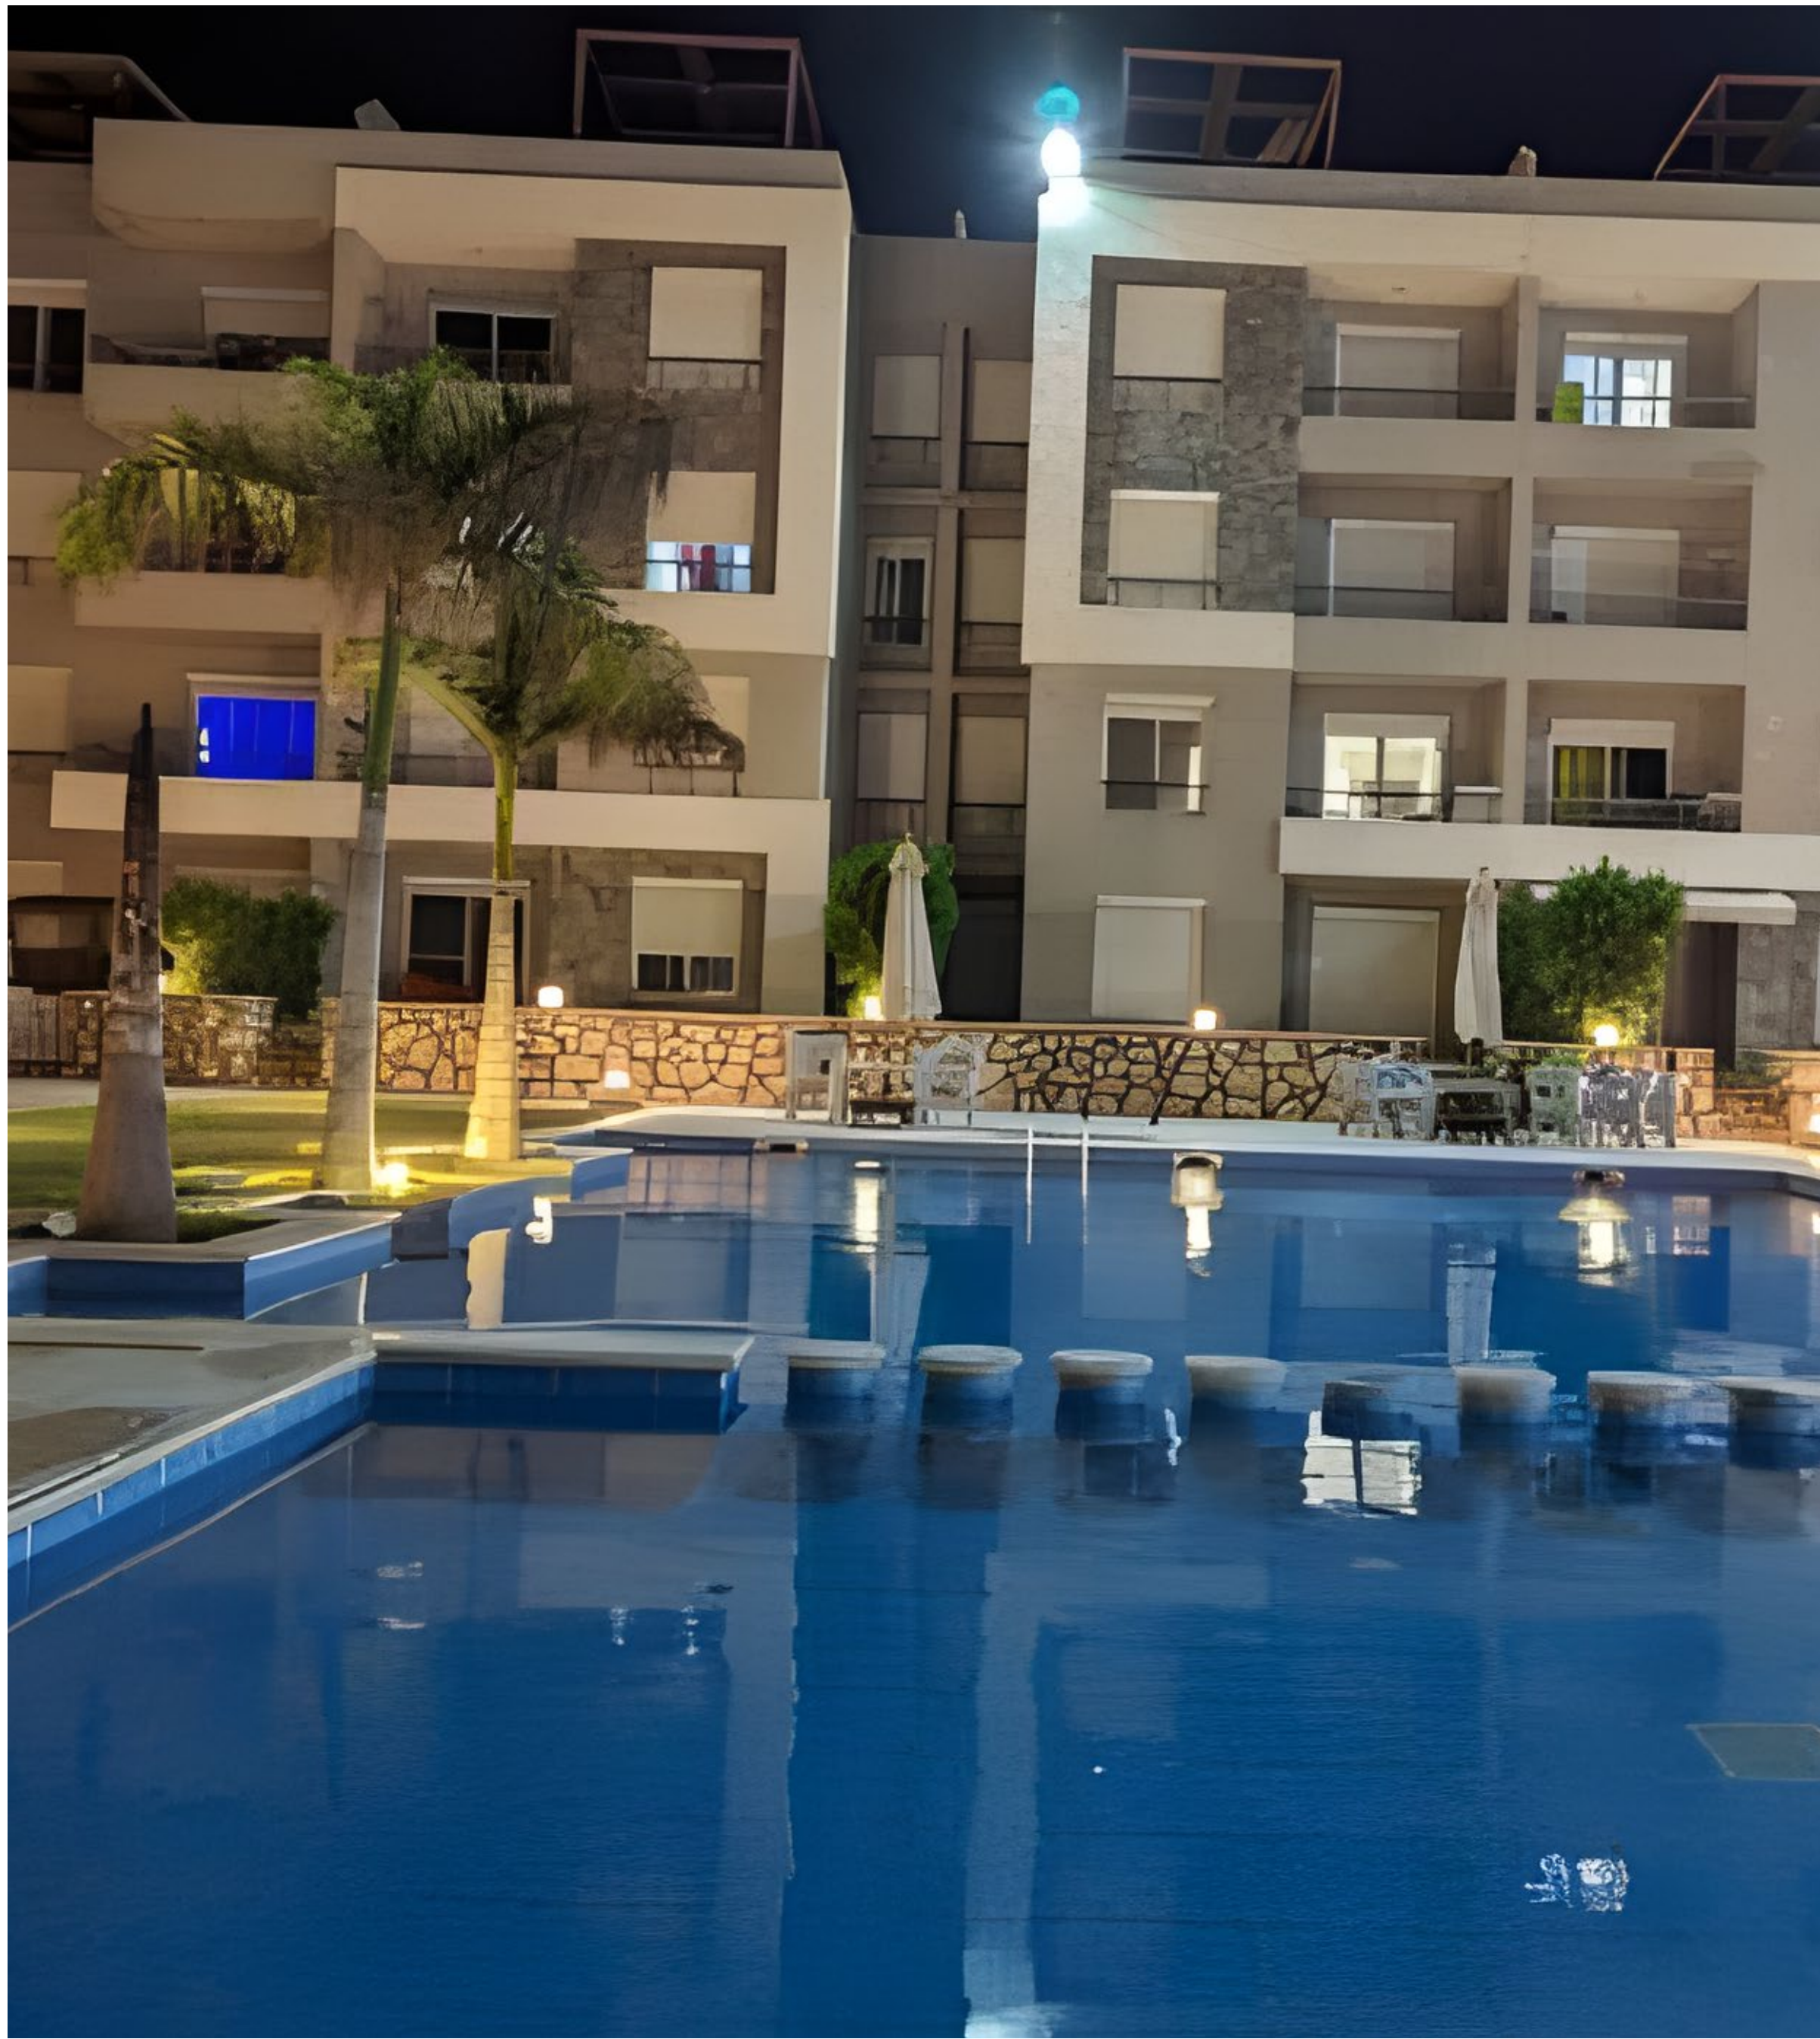

Long Island

Window - Shutter

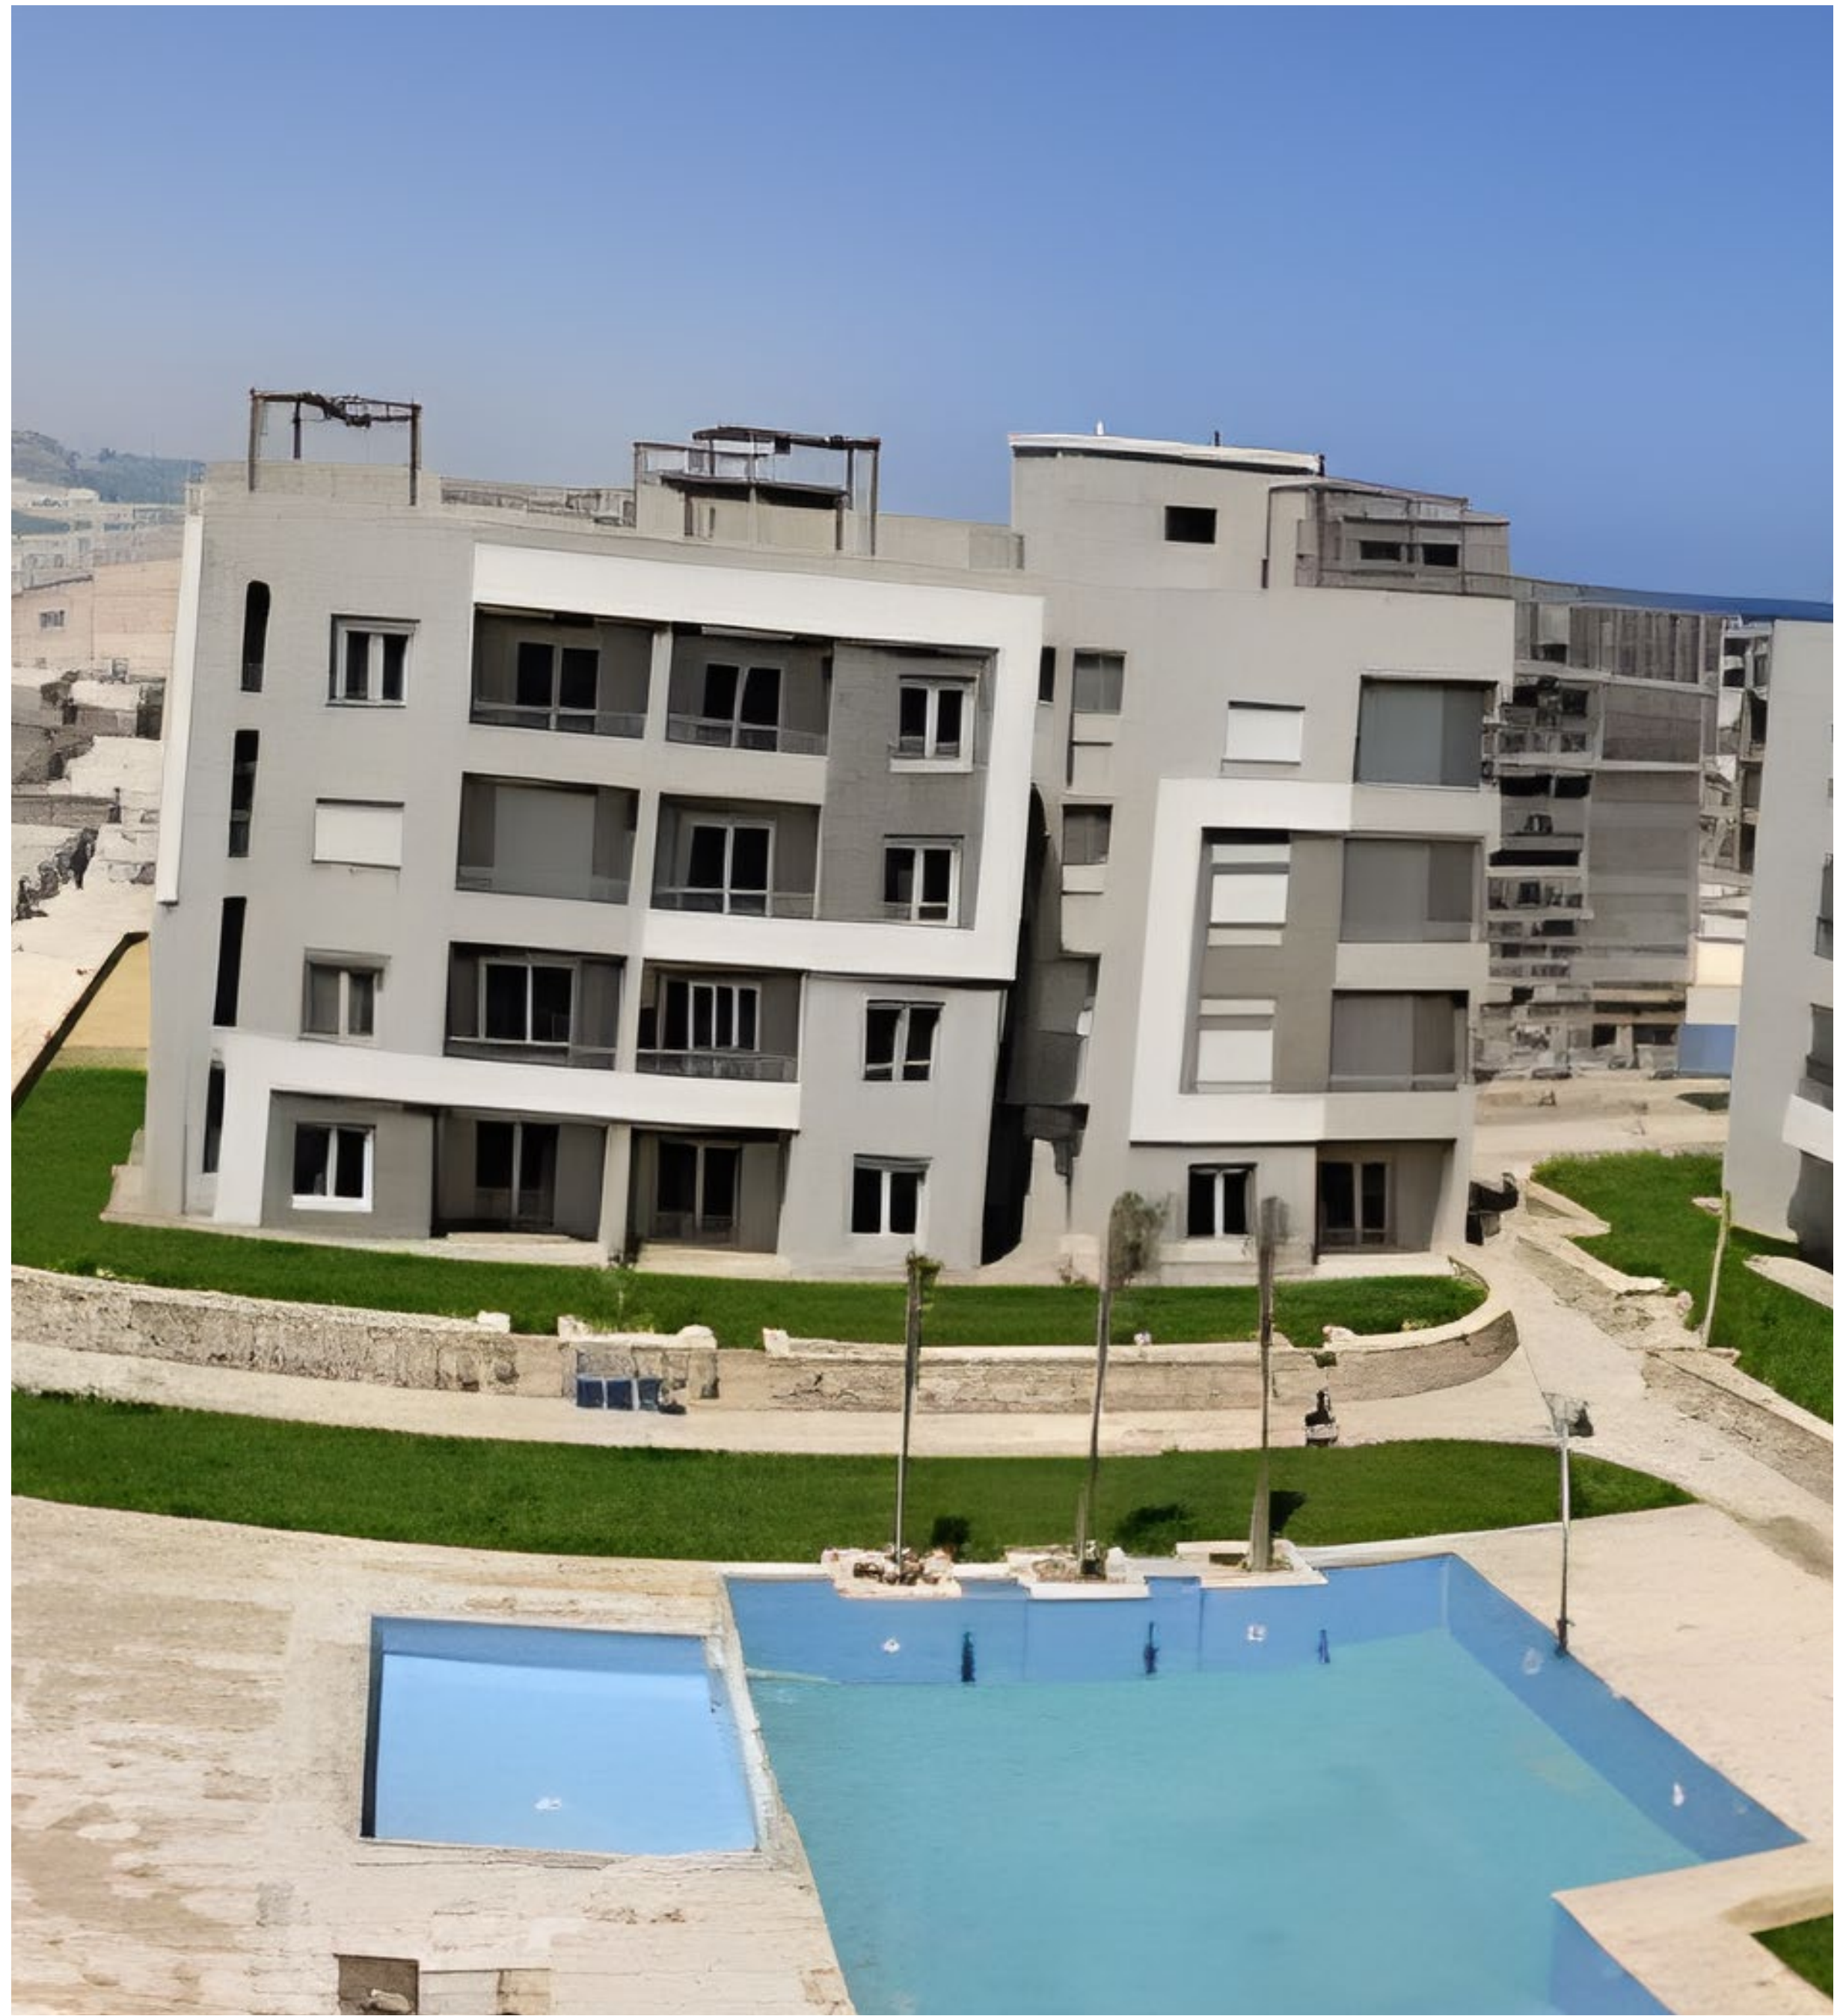

Project Details

ERRAM provided premium UPVC systems for Long Island, a coastal development designed for modern leisure living. With a focus on durability, insulation, and resistance to coastal weather conditions, our solutions support both functionality and style—enhancing the project's overall quality and comfort.

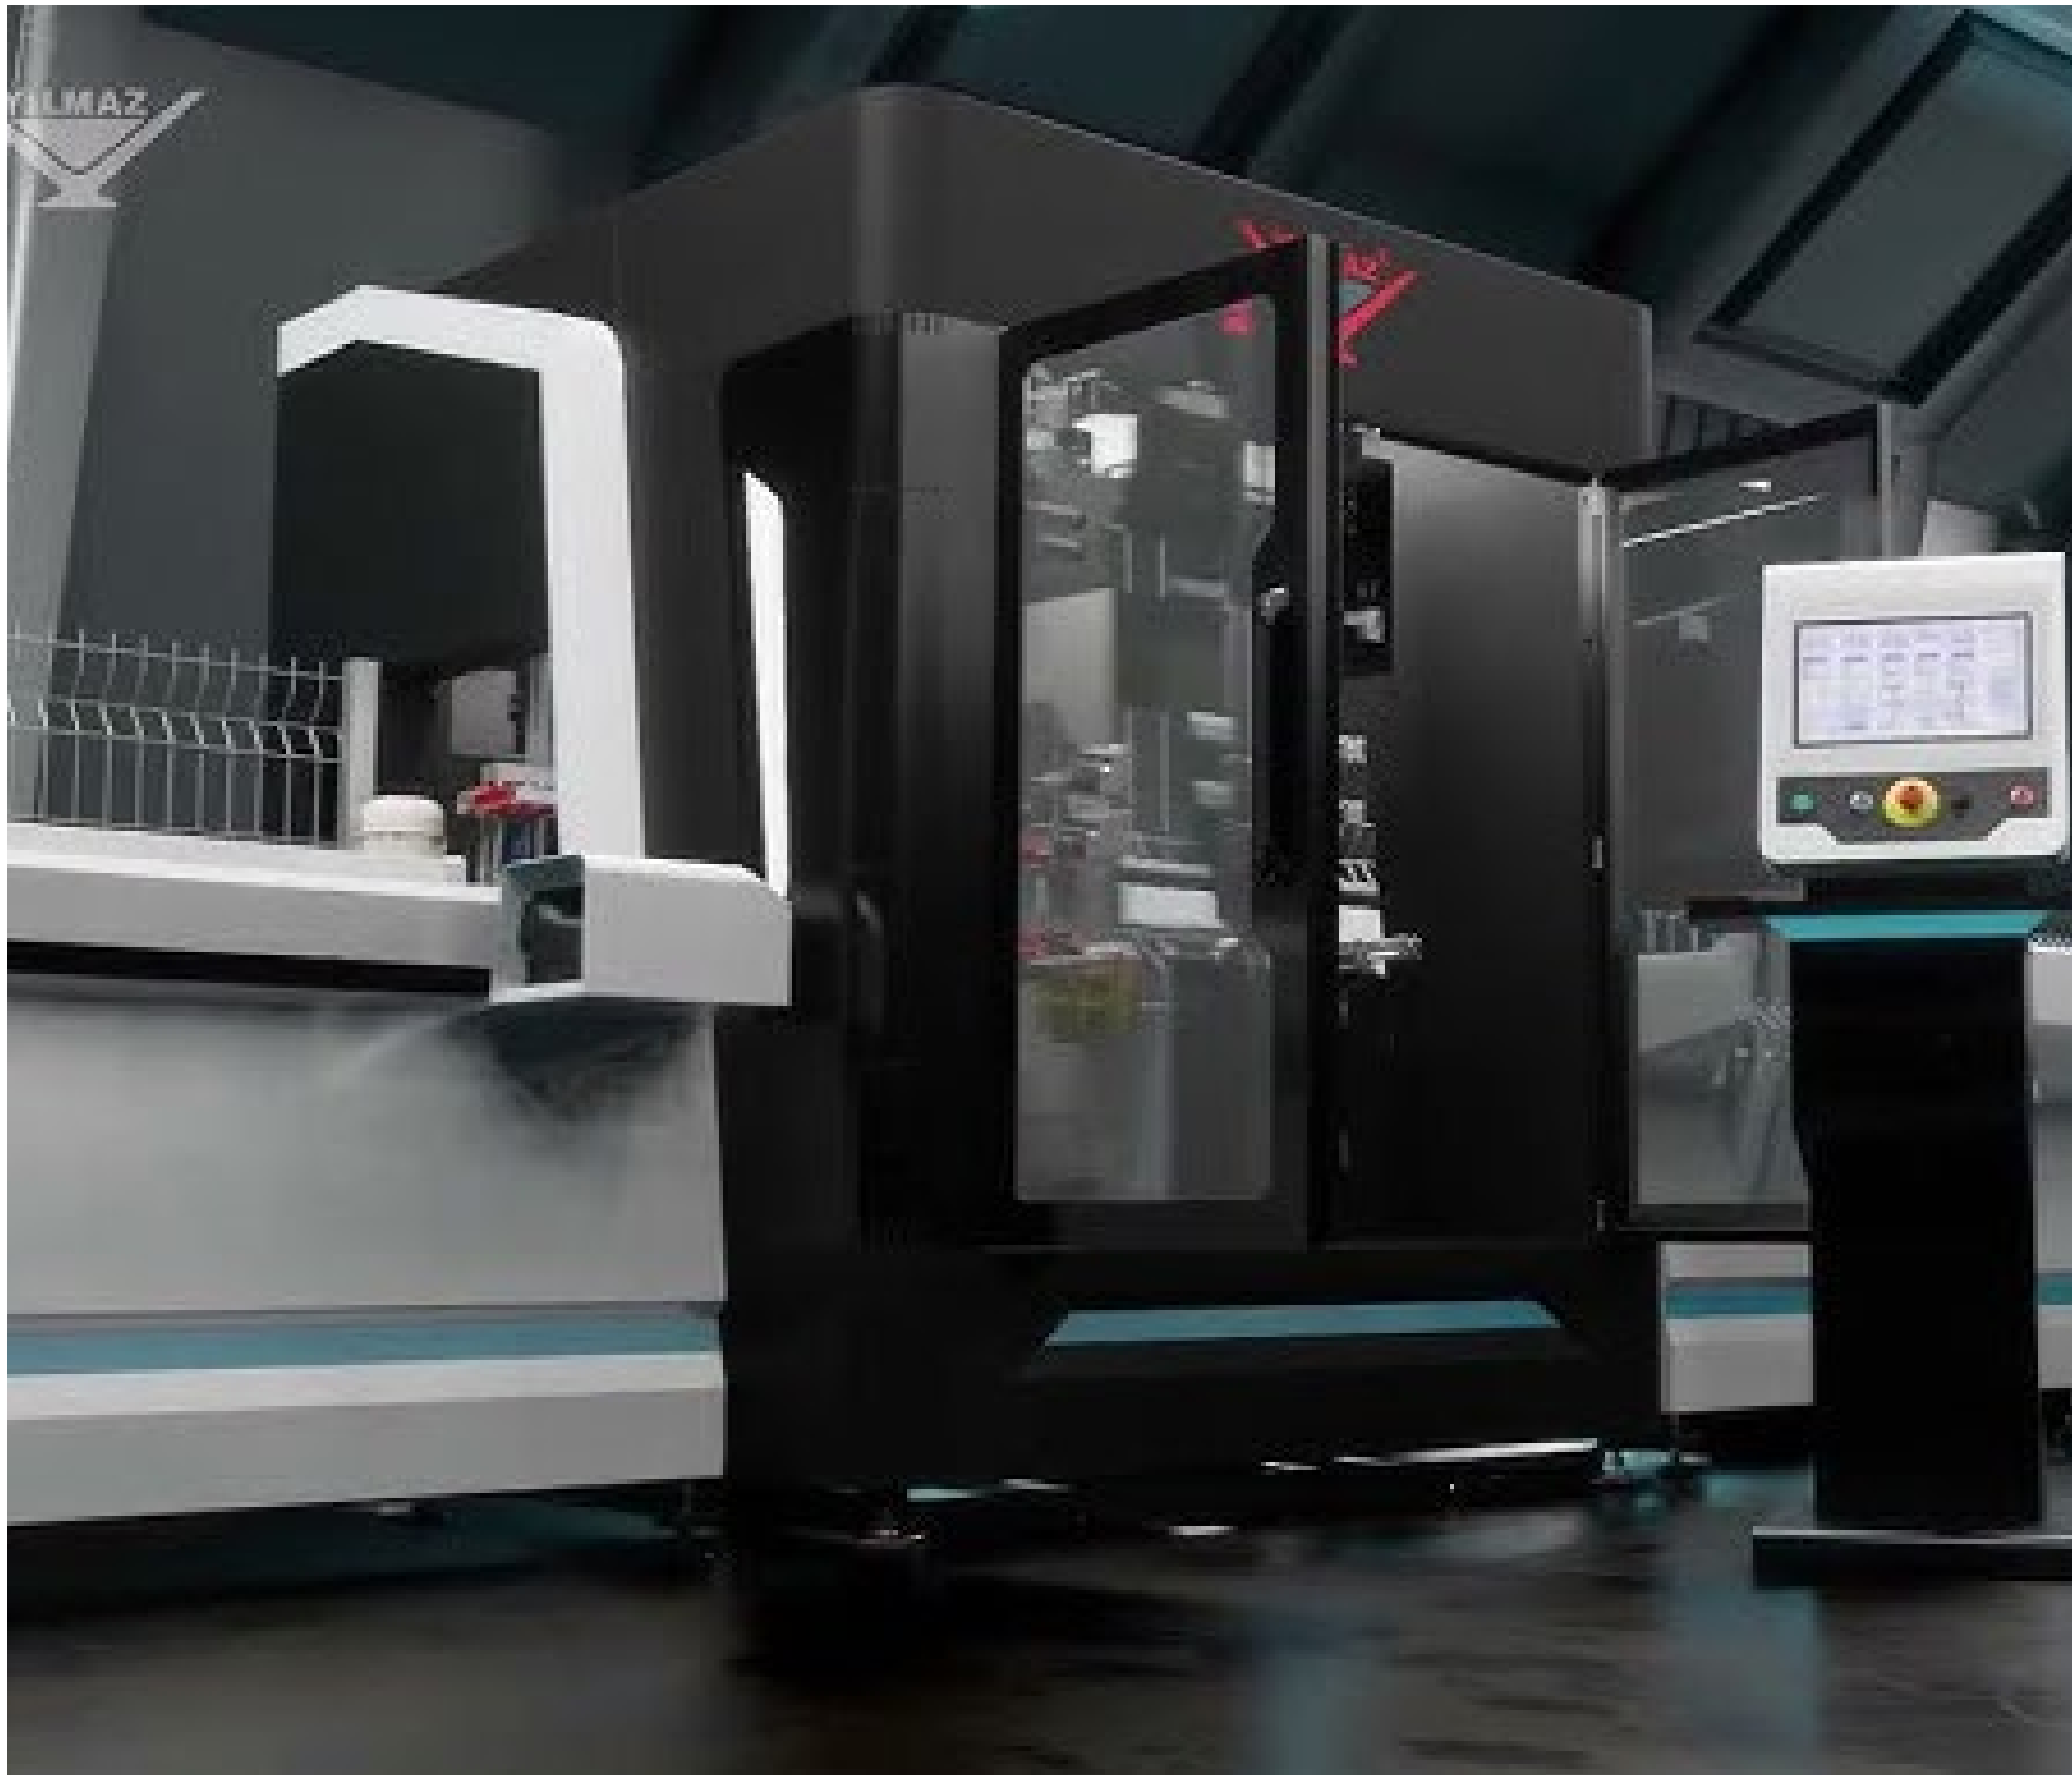

PRODUCTION LINE

ALM 6510 is 8-axis CNC controlled machining center which is specifically designed to process any kind of aluminum profiles in the market.

The machine can do all operations on four sides of aluminum profiles such as milling, opening key holes, hinge holes, handle holes, marking, saw blade cutting etc.

ALM 6510 has the programming feature which provides minimum waste and maximum amount of production. 7 pieces of aluminum profiles can be placed on the feeding conveyor of the machine and 3-axis pneumatic gripper moves them into the milling & cutting center for the milling and cutting operations. The cutting unit can perform serial cutting of profiles in the range of 45°-135°.

Operator attaches barcodes on the processed profiles to make them ready for crimping operation.
